MEDIATION MAY STOP STRIKE

Offer of Arbitration Made to Engineers by Labor Commissioner Accepted

Government Officials to Take Hand in Difficulty Involving Fifty Railroads

NEW YORK, April 23.—Whether the railroad men would accept the offer of Messrs. Neill and Knapp to act as mediators in the wage controversy with the engineers was discussed at this morning's session of the conference committee of the railroad men which met today.

Definite announcement of the railroad's attitude was expected to be made at the conclusion of the conference, probably late this afternoon.

The engineers remained in session awaiting the outcome of the railroad managers' deliberations.

Several officials said there was reason to believe the offers of Messrs. Neill and Knapp would be accepted by the railroad men.

MEDIATION ACCEPTED.

NEW YORK, April 23.—The offer of mediation from Charles P. Neill, United States labor commissioner, and Judge Martin A. Knapp of the United States Commerce Court, which was accepted by the Brotherhood of Locomotive Engineers last night, just after they had declared for a strike as the next move in their campaign for increased wages, came formally before the conference committee of railway managers today.

That the eleventh hour proffer of mediation by officials of the United States government will also be accepted by the railroad men was the general belief this morning. Judge Knapp is expected here from Washington this afternoon.

"Judge Knapp and I are to act only as mediators," said Commissioner

STATE MEN DEFY CITY POLICE

Harbor Commissioner Hill and Civic Authorities Clash Merrily

Auto Left Standing in Front of the Ferry Building Is Cause of Row

SAN FRANCISCO, April 23.—There is war in San Francisco. The police of the municipalities have been defied, their regulations have been overruled and an august sergeant was yesterday deliberately ordered off property under the control of the state by no less a personage than Harbor Commissioner George M. Hill, who lives in Alameda, and who is one of the Johnson appointees. The battle is technically between the state police and the city police and the rumblings of thunder can be heard in and about the ferry building and the clouds that are gathering on the horizon are ominous in their portent.

Commissioner Hill and Superintendent of Construction Kirby D. McLean have refused to obey the regulations of the police department and yesterday threatened to hurl Sergeant John J. Moriarty and his squad of officers from the ferry building. The police commissioners to whom a report of the affair will be made through the chief of police and the State Harbor Commissioners are therefore liable to fight it out.

STORY SENSATIONAL.

The story is a sensational one. It was 3 o'clock yesterday afternoon: Patrolman Charles E. Munn approached Superintendent McLean and told him he was violating the regulations in leaving his automobile standing idle for four or five hours in the way of the hotel busses, the taxicabs and other machines and was asked if he would run it to the north end of the building.

Vast Holdings in Fresno County on West Side Sought by Reputed Purchasers.

FRESNO, April 23.—The J. G. James Co. of Fresno was today made a defendant in the Superior Court in a suit filed by Attorneys C. W. Durbin and G. V. Shoup of San Francisco, in which Charles A. Hawkins and Alfred L. Meyerstein representing the Delta Irrigated Lands Company bring action to enforce an alleged \$2,500,000 land contract. The Delta Land Company alleges that the James company gave the plaintiff a three months' option to purchase holdings in the west side of Fresno county aggregating hundreds of thousands of acres for the sum named, \$550,000 down and the remainder in annual installments, and although the first payment was proffered it was refused.

Silverware and Jewelry Taken From Boston Millionaire, Is Found.

BOSTON, April 23.—A large amount of silverware and jewelry, part of the \$5000 loot taken from the home of a Boston millionaire by burglars nine years ago, has just been unearthed on the grounds of the Milton academy. A mounted police officer was shot while chasing one of the burglars on the night of the theft and later George Denovan was arrested and sentenced to 25 years for burglary and shooting.

Railroad Federation Waits President's Reply

KANSAS CITY, April 23.—St. Louis was chosen today as headquarters for two years of the Federation of Federations, organization of which was completed here yesterday by representatives of shop crafts on railroads west of the Mississippi river. Delegates representing the 300,000 men included in the Federation marked time today, awaiting an answer to their message to President Taft yesterday, asking his assistance toward the settlement of the strike on the Harriman lines. It was announced that if no reply is received today the convention would adjourn, leaving a committee empowered to call a strike ballot in the event the President's answer was unfavorable. A strike, if called, federation officials say, will involve 250,000 men in addition to 30,000 already out on the Harriman lines.

Twins Play 'Indians'; One Burned to Death

LOS ANGELES, April 23.—Simon and Jacob Dubhoff, three-year-old twins, while playing "Indian" yesterday, started a camp fire in their home with the result that Simon was burned to death and the house was practically destroyed. The children were alone at home, their mother having gone down town after dressing them in Indian costumes.

Scream of Hundreds Perishing in Icy Water Haunts One Survivor Who Begg Committee Not to Ask About Cries for Help That Went Unheeded

100 BODIES RECOVERED FROM OCEAN

WASHINGTON, April 23.—The life and death struggles of the victims of the Titanic disaster were pictured to the Senate investigating committee today by Third Officer Herbert John Pitman of the sunken liner.

"I heard no cries of distress until after the ship went down," he said.

"How far away were the cries from your life boat?"

"Several hundred feet, probably, some of them. I told the men to get the oars out and pull toward the wreck that we might be able to save a few more. The people in my boat demurred. They said it would be a mad idea."

"Did any one in your boat urge or appeal to you to go back toward the wreck?"

"No, not one."

"Did any woman urge you to go back?"

"No."

"Who demurred, the men with the oars?"

"Oh, no, they obeyed my orders, but all the passengers said it was a mad idea to go back, that we should add another forty to the list of drowned. Then we took in the oars and lay quiet."

"Describe the screams."

"Don't, sir, please; I'd rather not talk about it."

One Long Continued Moan

"I'm sorry to press it, but what was it like? Were the screams intermittent or spasmodic?"

"It was one long, continued moan."

The witness said the moans and cries continued an hour and that he made no effort to go to the rescue.

"You drifted near the drowned men and made no effort to give them aid?" asked Senator Smith, in surprise.

"Please, sir, don't," pleaded Pitman. "I can't bear to recall it. I wish we might not discuss the scene."

"I have no desire to lacerate your feelings," said Senator Smith, "but we must know why you drifted there without offering aid. Answer that and I shall press you no more."

"I did, sir," answered the witness.

"Did you ever hear anything of a boat known as the Hellig Olav?" suddenly asked Senator Smith.

"No, I did not. There may be a boat of that name," said Pitman.

The Olav docked at New York April 17 and is reported to have encountered an iceberg near where the Titanic sank. It has been suggested that the Olav may have been the boat whose lights Fourth Officer Boxhall saw and which he ineffectually tried to signal with distress rockets.

Inquiry to Last Several Days

On resuming the inquiry into the Titanic disaster today members of the Senate investigating committee were convinced that the hearing would require many days. Senator W. A. Smith, chairman, and his colleagues are convinced that the facts already disclosed point out inadequacy in marine regulation, and that the whole story, when told, will form the basis for new maritime laws and lead to international conferences entirely revising ocean steamship transportation.

The committee had planned to recall to the witness stand today Fourth Officer J. B. Boxhall of the Titanic, who revealed the startling fact yesterday that an unknown ship was sighted about five miles from the Titanic long before she went to the bottom. This was the first time anything had been told of the ship which failed to catch the distress signals and steamed away leaving the Titanic to her fate. When the inquiry was resumed it was announced that Boxhall was ill and could not be heard further at this time. John Pitman, third officer, then was called to the stand.

Public Excluded From Hearing

Owing to the great confusion caused by the rush of the crowds to the hearing and the constant interruptions during the questioning of witnesses the Senate committee determined today to exclude the general public. To accomplish this the hearing was transferred to a smaller room. Only witnesses, those par-

KIDNEY TROUBLE CAUSES LUMBAGO

Remarkable Story About Great Remedy

I cannot refrain from writing to say that my Swamp-Root has benefited me greatly. Last year I had a severe attack of lumbago. Was bad for a long time, and on seeing your advertisement I determined to give it a trial. I did so and in two weeks was cured. I gave a bottle to a poor woman who could scarcely walk. She came to me in four days to tell me she was all right and most thankful. I had another attack last November and was so bad that I could not rise from my chair without assistance and could hardly take up my boots. I at once sent for more Swamp-Root and after taking two bottles I am more than glad that I am well again. My age being seventy-three, I am the more convinced of the excellence of Swamp-Root.

also for the privilege of standing here," replied McLean, but when Munn was insistent, he moved. Fifteen minutes later he came back with Commissioner Hill who had meantime found Sergeant Moriarty and then the real first round began. Officer Munn describes the situation as follows:

"I asked Mr. McLean of the Harbor Commission to leave his auto in the north end of the Ferry Building, where it would be out of the way of the other machines that keep coming and going all day long and not block the space where the hotel buses stood for four or five hours each day. He stated that he paid as much for the privilege as anybody else, but finally moved his machine as requested."

RETURNS WITH HILL.
"He came back fifteen minutes later with Mr. Hill of the Harbor Commission and Sergeant Moriarty. I told Mr. Hill that his machine was subject to the orders of the police the same as any one else owning a machine. He then told me that he would put his machine any place he desired, and he was not taking orders from the municipal police who were there through sufferance of the State Board of Harbor Commissioners. He then told me that he was going to call on the State Board of Harbor Commissioners, where the wrath of the state officers chiefly fell."

"Mr. Hill told me," asserts Moriarty, "that our police officers were there on sufferance of the Harbor Commissioners. He said the state police would look after the machines and I therefore instructed my officers to pay no attention to automobiles." That ended the controversy and Hill and McLean went upstairs.
A full report of the occurrence was made to Captain Kelley of the Harbor District and it is the opinion of the local police that not only is the Ferry Building part of the municipality, even though it stands on State-owned land, but even so is Goat Island which of itself is owned by the United States government. At any rate, Sergeant Moriarty and his loyal support are now on the ground to see that the machines granted no license are blocking the main entrance to the Ferry Building and Commissioner Hill and Superintendent McLean are in their offices.

Steamer Company's Manager Perished

NEW YORK, April 23.—It was learned today that Jonkheer G. G. Rauchlin, managing director of the Holland-American steamship line, had gone down with the Titanic. Rauchlin was coming to this country to arrange business relative to the opening of the Panama canal. He had funds for the survivors' relatives to grow and the hospital report that practically all the sufferers are recovered.

Accident Companies to Pay \$1,000,000

HARTFORD, Conn., April 22.—The Titanic disaster will cost insurance companies of Hartford nearly \$1,000,000, according to statements by officials of the companies. The loss will be chiefly, it is said, on those companies which do an accident business, while the companies issuing only life policies will suffer small losses.

Remains of 42 Drowned When Titanic Sank Have Been Identified

NEW YORK, April 23.—The officials of the White Star line were able to announce today that they had checked off, with the aid of their passenger lists, some of the names of the identified dead whose bodies were recovered by the cable ship Mackay-Bennett near the spot where the Titanic sank. The list follows:

FIRST-CLASS PASSENGERS.

W. D. Douglas.
Ramon Aragoyletia.
Fred Sutton.
A. H. Holmstrom (sent by wireless as A. J. Holmstrom).
SECOND-CLASS PASSENGERS.
Louis M. Hoffman.
John H. Chapman (sent by wireless as John A. Chapman).
W. Corbines (by wireless as W. Corbines).

W. H. Harbeck.
John Gill (by wireless as J. S. Gill).
Nicholas Nasser (by wireless as N. E. Colas Rasher).
Mrs. Mary Mack.
Reginald Hale (by wireless as Reg. Hale).

STEERAGE PASSENGERS.

Mary Morgan or Margon (by wireless as Mary Mangion).
James Farrell.
James Kelly.
Henry Hansen.
Maurice Dahl (by wireless as Maurice Dahl).
Leslie Gillinski.
Ernest P. Tomlin.
Joseph Drzymovik (by wireless as Joseph Drzymovik).
Malcolm Johnson (by wireless as Malcolm Johnson).
Neslie Williams (by wireless as Leslie Williams).

NAMES CONFUSED.

The officials have not been able to verify the following:
Mrs. N. McNamee. It is supposed this is Eileen McNamee, a steerage

passenger from Queenstown, Ireland. There is no Catalvas Vasilious. On the White Star's list there appears a Thomas Catalvas and a Peter Vasilious. It is not possible to determine which of these two is meant.
The name of William Sage does not appear, but it is thought he is the son of John Sage. Both father and son were 17 years the last. There is no W. Year, as sent by wireless on any of the lists. This is believed to be W. J. Ware, a second-class passenger.

There is no Mrs. A. Robins among the bookings, but Charity Robins, a third-class passenger, appears. She, it is thought by the White Star, is the wife of Alexander Robins, who was booked in the steerage.
The lists have no record of M. Greenberg, as sent by wireless, but the name of Samuel Greenberg is on the list of second-class passengers.

The following names of identified dead, as received by wireless, are not on the passenger lists of the steamship company:
W. Marriott.
George Rosenshine.
H. J. Ashe.
R. E. M. A. Hayer.
Jerry Morgose.
Steward No. 76.

All doubt that the name of N. E. Colas Rasher, as sent by wireless by the White Star line, is that of Col John Jacob Astor was dispelled when the wife of Nicholas Nasser told the officials that N. E. Colas Rasher must be her husband. The steamship company officials also say the name Nasser is on their lists.
The Mackay-Bennett will remain near the scene of the disaster. It has recovered 100 bodies. Up to the present it has been taken out of the sea, 42 of which have been identified. It is thought the ship will endeavor to reach Halifax on Friday.

BUY UP ALL LIFEBOATS

NEW YORK, April 23.—Every standard lifeboat and life raft that was on sale in New York City has been bought by the Cunard line to complete the equipment of the Mauretania for the voyage which begins at 1 o'clock tomorrow morning from this port. The number of additional boats and rafts obtained after scouring the waterfront was fourteen and the addition of those to the Mauretania's equipment gives her life-saving accommodations for about 2000 persons. When she starts on her next westward voyage from the other side there will be lifeboats enough on board to give a seat to every person aboard, both passengers and crew.

ICE PREVENTS STEAMER FROM REACHING SINKING TITANIC

MAASSLUTS, Holland, April 23.—Masses of ice prevented the Russian steamer Birma, which left April 11 for Rotterdam and Lisbon April 11, from reaching the Titanic in reply to the sinking liner's appeal for assistance. The Birma arrived here this morning. Captain Stolpin said his vessel was 100 miles from the Titanic when he received the wireless call that the liner was in danger. The Birma hurried to the spot, but had to take a round-about course owing to the presence of an enormous iceberg. As the Birma reached the scene of the disaster the Cunard liner Carpathia.

sent word that the Titanic's boats had been picked up but that the liner had sunk.
The Birma received the first call for help from the Titanic at 12:32 Monday morning. Captain Stolpin immediately proceeded at full speed in the direction indicated, meanwhile preparing boats for rescue work, but when, at 8 o'clock in the morning, the Birma reached the scene she found nothing but icebergs.
At the other end of an immense iceberg, she sighted a vessel, which turned out to be the Carpathia.
The Birma was in wireless touch with the Titanic from 12:32 until 2 o'clock.

OCEAN GIVES BACK \$15,000,000 INSURANCE LOSS

Waifs Saved From Titanic Are Believed to Have Been Kidnaped

The Life, Accident and Marine Companies Are Hit Hard by Wreck.

NICE, France, April 23.—It is possible that the mystery of the identity of the two children answering to the names of Louis and Lolo, who were saved from the Titanic, may soon be cleared up.

NEW YORK, April 23.—Insurance men estimate that the total losses to be paid by the various life, accident and marine companies as a result of the sinking of the Titanic will reach approximately \$15,000,000. Two-thirds of this will fall upon the marine insurance companies. Several American companies which do all classes of business have been hard hit.

All the marine insurance was carried abroad, but the risk is distributed largely in this country by means of what the insurance men call "reinsurance"—that is, the company insuring the policy reinsures a part of its risk in other companies.
"Insurance Field," a trade journal published here, asserts that "nowhere in the annals of insurance is there a parallel for the loss of insured life and property occasioned by the sinking of the Titanic." The journal makes the following estimates of the total loss:
Life insurance, \$2,193,000.
Accident insurance, \$2,213,000.
Marine insurance (ship), \$6,000,000.
Marine insurance (cargo), \$6,000,000.
Total, \$14,406,000.

The Birma, the wife of a sailor living here, says she recognizes her two children in the description of the two little ones. She is separated from her husband, who a month ago, she declares, took away the children and disappeared, after telling his friends that he was going to America. The child at Berlin, traveling with a man named Hoffman, who is said to have been a friend of Vavrati's.
The two French waifs were found wrapped in a blanket in one of the Titanic's lifeboats.
According to stories told by survivors, a man passed the children into the boat just as it was leaving the side of the ship. Officers stepped forward to prevent his taking a place in the boat, but he declared that he did not wish to go, asking that the children be taken, as their mother was waiting for them. The man was not saved.

Relief for Victims' Families Is Sought

Memorial Services for Wm. T. Stead

WASHINGTON, April 23.—Resolutions authorizing \$10,000 appropriations for the families of each of the three United States postal clerks who lost their lives on the Titanic were introduced in the House by Representative Kelly of Connecticut. The three men were Oscar S. Woods, North Carolina, John S. March and William M. Gwynn of New York.

NEW YORK, April 23.—The Christian conservation congress of the men and religion forward movement devoted its sessions last night to memorial services for William T. Stead, the English editor, who perished in the Titanic disaster. Stead was on his way to address the movement on the subject of "Universal Peace," and was on the program to speak to-night.

New White Star Ship to Have Double Bottom

LONDON, April 23.—It is understood that the plans of the White Star liner Gigantic, which is now being built at Belfast, and which was to have been 1000 feet in length, will be modified. It is probable that the new plans will provide for a double-cellular bottom and sides such as the Mauretania and Lusitania have, as a stipulated condition of receiving the government subsidy. The Olympic has been provided with forty collapsible boats and will carry sixteen additional lifeboats.

M. D. Boardman 573 W. Main street, Helena, Mont., gives an interesting account of his recovery from the sinking of the Titanic. He says: "I am almost 70 years old and have spent hundreds of dollars for medicines, but I have received more benefit from Foley Kidney Pills, than from all other medicines." Further particulars sent on request. Wishart's drug store, corner Tenth and Washington streets.

OFFICERS ON BRIDGE DISCUSSED ICEBERGS

Survivor Tells of Meeting Ismay Just Before Lifeboats Were Launched

(Continued From Page 1)

ticularly interested in the inquiry and reporters were admitted. The change caused disappointment to thousands, most of them women, who crowded the corridors. There were loud protests and hundreds remained about the building clamoring for admittance.

Third Officer Pitman told of his experiences during 17 years on the seas.

AT TRIAL TEST.

"Were you present during the trial tests of the Titanic?" asked Senator Smith.
"Yes sir, I was on the bridge most of the time."
The witness said the tests consisted of steaming in circles and in performing other evolutions and in adjusting compasses.

"Were there any trials for speed?" he was asked.
"No sir, I believe they have no such tests on the White Star Line."

"Tell the committee the circumstances of the departure from Southampton."
"We left Southampton at 12:15 p. m. Wednesday, April 10. Nothing exciting happened except breaking the mooring of the New York, caused by the lack of our starboard mooring peller. We got clear and proceeded to Cherbourg after a half hour delay."

BOAT DRILLS HELD.

The witnesses said boat drills always were held at Southampton and at Queenstown. The Titanic's drill at Southampton, he said, consisted of lowering and lifting two boats.

"The drill was to satisfy the British board of Trade," he said. "We lowered the boats, sailed around the harbor and then returned to the ship."
"Was there any drill on the Titanic?" he was asked.
"No sir, none."

"Yes I saw the bridge Saturday or Sunday preceding the accident?"
"Oh yes, part of the time, Saturday afternoon from 12 to 4."

"Did you hear anything about ice Saturday?"
"No sir."

"Did you hear anything about a wireless message about icebergs?"
"No sir, none. I did not hear either Saturday night or Sunday morning when Mr. Boxall put it on the chart."

"Did you talk with Boxall or Murdoch or Lowe regarding the proximity of the Titanic to ice?"
"I did not, sir."

NOT HIS PLACE.

"Did you talk to the captain?"
"It's not my place to talk to the captain."

"Did he talk to you about it?"
"No."

Asked if he saw any ice on Sunday Pitman said he did not. The fact that the temperature was lower, would not always show proximity of ice. The witness said virtually the only way to discover the proximity of icebergs was to see them.

"Then you are convinced there is no way of telling?" asked Senator Smith.
"There is no other way. Some may hold that there are numerous ways but they have never been demonstrated."

Senator Smith asked Pitman if he knew the temperature tests of the water were made every two hours on the Titanic's voyage from Southampton.
"Yes sir, it was the custom."

"It was more than a custom, was it not?"
"It was not an attempt to discover the nearness of ice."

"Did you know of it?"
"Did you see the quartermaster on the Titanic test the water?"
"No, but I saw him preparing to do it several times," replied Pitman.

ICE MARKED ON CHART.
"You saw the fourth officer reported ice Saturday night and marked it on the chart with a cross. Was this mark on the chart on or near the ship's course?"
"As near as I recollect, it was north of our course."

"Did you see any ice Monday?"
"Yes. When I was in the lifeboat going to the Carpathia I saw several icebergs. There may have been half a dozen of them."

"Were these bergs high above the water?"
"About 150 feet above the water."

"Did you hear anything about a warning of ice from a look-out?"
"No sir."

"You heard nothing whatever either from Second Officer Lightoller or the captain, when you were on the boat that night?"
"No sir."

SPECIAL LOOKOUT.
The witness said the Titanic had been keeping a special lookout for ice on the fatal Sunday. He said it was done because Captain Smith had been told that there was ice near.

"Who warned him?" inquired Senator Smith.
"I don't know, sir."

"Well, who told you that he had been warned?"
"I cannot remember who told me before the disaster or afterward."

"I cannot remember who told me that it was after the wreck?"
"No sir, I do not know."

"Were you on the bridge most of the time?"
"Yes sir, I was on the bridge most of the time."

"Tell the committee the circumstances of the departure from Southampton."
"We left Southampton at 12:15 p. m. Wednesday, April 10. Nothing exciting happened except breaking the mooring of the New York, caused by the lack of our starboard mooring peller. We got clear and proceeded to Cherbourg after a half hour delay."

CALMLY DRESSES.
"Then I returned, lighted my pipe and dressed leisurely, for it was near time for my watch. Just as I finished dressing, Mr. Boxall came up and I asked him what was the matter. He said: 'We've struck an iceberg.'"

"I went back on deck again and met Sixth Officer Moody. I asked him if he had seen the iceberg and he said 'No,' but there was ice on his deck. To satisfy myself, I went forward and saw the ice."

"Then I walked back and saw a flock of firemen coming up. I asked what was the matter. They said, 'There is water in the hatch. I looked downward and saw water flowing over the hatch.'"

"Then I went up on deck and met a man in a dressing gown who said to me, 'Hurry, there's no time for fooling. Then I went to the boats.'"

"Did you know who that man was?"
"Not then I do now."

"Mr. Ismay. Later this man told me to get the women and children in the boats. I lowered one of them. Mr. Ismay came to the boat and helped me. I put in quite a number of them and a few men. Then I called for more women, but there were none to be seen."

"Then I stepped back on the ship again and Officer Murdoch told me to get in the boat and row around to the after gangway. I thought that was the thing to do, because I expected to bring all of the passengers back to the ship again."

NO GLASS FOR LOOKOUT.

Frederick Fleet, who was the lookout in the crow's nest of the Titanic, testified that on Sunday night some time after 10 o'clock he reported a black mass of ice ahead to the officers on the bridge. How long this was before the collision, the lookout could not say.

Fleet told the committee that there were no lookout glasses in the Titanic's crow's nest after leaving Southampton. If he had had glasses, he said, he could have seen the iceberg sooner, to have escaped it. He said glasses were furnished the lookout from Belfast to Southampton where they were taken away.

Fleet said he took his watch at 10 o'clock Sunday night. Sailor Lodge was with him in the crow's nest and the man he relieved told him to keep a sharp lookout for small ice.

"Did you see any ice?"
"Yes, at several points. At 11:30 p. m. I reported a black mass ahead."

"How long before the collision did you report ice ahead?"
"I've no idea."

"I could not say."

"What did you do when you saw the iceberg?"
"I sounded three bells and then telephoned to the bridge that there was an iceberg ahead."

The officer on the bridge got a prompt response to his ring, he said, and the report was not delayed. Shortly after the incident he and Leigh were relieved.

SMITH EXASPERATED.

"Was it 5 minutes or an hour before the collision that you saw the iceberg?" demanded Smith in exasperation.
"I don't know, sir," said the witness abruptly.

"I wish you would tell the committee whether you were in danger when you sounded these signals."

"All we have to do in the nest is ring the bell and if we think there is danger (telephone), said Fleet.

"Then you thought there was danger when you rang the bell?"
"I thought the berg was pretty close, but it did not seem so large when I first saw it."

"About how large?"
"About the size of two big tables. But is got larger as we went along and when we struck it it was about 50 or 60 feet high above the water."

DID NOT STOP.
"After you gave that telephone signal was the ship stopped?"
"No, sir, she did not stop until after we struck the iceberg, but she started to stop after she telephoned."

"Where did the iceberg strike the ship?"
"On the starboard bow about twenty feet from the stem," Fleet answered.

Fleet said that when the collision came there was little impact and "just a sharp grinding noise."

Fleet then told of the launching of lifeboats 6, 7, 8, 9, 10 and 11. Quartermaster Hitchens took charge of until picked up by the Carpathia. Three male passengers and about 25 women were in the boat.

VESSEL SLIPS BY.
"We had orders to pull for a light off the Titanic's port bow," said Fleet, "but we could not get to her. At one time she was abreast of us, but she slipped by."

"Were there any other light ahead when you were in the crow's nest before the collision or after it?"
"No sir, we did not see the light off the port bow until after we were in the life boat. The lookouts who relieved Leigh and we are said to have reported the light of a vessel."

"What was the color of the light you were seeing?"
"White."

OH! HEAR IT!

This is good news and bad news mixed.

The good news should come first. Here it is:
The Oakland Orpheum this week has the classiest, most entertaining, most artistic and (with two exceptions) the MOST EXPENSIVE VAUDEVILLE BILL it has shown since its opening, five years ago.

Last Sunday 5000 fastidious and delighted folks fled out of the Orpheum and said: "Wasn't that the best ever?"

Last night the Retail Grocers' Association and their ladies packed the Orpheum to the very doors, with hundreds standing, and they laughed and cheered and palm-pounded and laughed again at the smartest, funniest and highest salaried lot of vaudeville artists the theater has ever housed. Their verdict was unanimous: "GREAT!" Ask them!

Now, that's the good news, and we know you'll be mighty glad to hear that this week's show is absolutely a record-breaker for joy, for clean fun, for merry wit, for smart songs, for pretty girls, for marvelous acrobats, for clever comedians, for thrills and jollity and all that goes to make up Orpheum vaudeville.

There never has been a bigger, better, more entertaining bill in the theater, and it will be a long time before so sparkling a show comes again to the theater.

Incidentally this big bill is drawing big crowds of the most fastidious theater-goers in Oakland.
But here comes the bad news:
This extraordinarily good bill will go out—every bit of it—next Saturday night.

Not one solitary act will be held over next Sunday.
We change the entire bill every week now!

That means that if you want to see the following marvelous acts you'll have to come this week and we know you'll want to come to see these stars:
(This week only)
MCINTYRE & HEATH,

(This week only)
DAVID SCHOOLER & LOUISE DICKENSON,
The Boy Paderevski and the Juvenile Mary Garden.
(This week only)
HARRY L. WEBB,
The man who talks and sings.

(This week only)
SUE SMITH,
Pretty Girl—Sweet Singer.
(This week only)
THREE SHELVEY BOYS,
Athletic Marvels.

(This week only)
KARL GREES,
Novelty Painting Act.
(This week only)
HARRY SALMON and GLADEST JOY,
Brilliant English Sketch Artists.

(This week only)
JOHN E. HENSHAW and GRACE AVERY,
"Strangers in a Strange Place."

Now, there you are. All of the above acts close next Saturday night. You won't want to miss one of them, for altogether they make up the most notable and most expensive bill (with two exceptions) the Orpheum has ever staged.

Come this week, therefore, without fail, folks, and also plan to come next week, for the Orpheum will offer next week for the first time since it opened, EIGHT ABSOLUTELY NEW ACTS—NOT A SINGLE HOLD-OVER.

Here's the list of acts for next week's absolutely new bill:
Law.
KATHERINE GREY, a glorious star, and her players, in "Above the Law."

LUCY WESTON, the famous English Music Hall Artist.
THE SEUMAS McMANUS players, in "The Lad From Largsmore."
WORMWOOD'S CANINE CIRCUS.

THE STEWART SISTERS and their escorts.
THE MANKICKI JAPS—all marvels.
DOROTHY KENTON, the girl with her banjo.
THE GLADDENBECK TRIO, in gymnastic pantomime.

Look the above list over.
Note the world-famous names it includes.
Note that there are eight absolutely new acts to come next Sunday.

Then make your plans to come next week—after you have seen McIntyre and Heath and the rest of the magnificent bill that's on at the Orpheum this week.
That's all.

In Vain Signals to Passing Ship

WASHINGTON, April 23.—With succor only five miles away, the Titanic slid into a watery grave, carrying with it more than 1600 of its passengers and crew, while an unidentified steamer that might have saved all failed or refused to see frantic signals of those on board.

Had there been a slight wind, sufficient to have caused the sea to break in ever so small a ripple at the water line of the berg, the lookouts would have discovered it in time to have changed the vessel's course so that it would have cleared the icy death menace.

These two points in the tragic disaster were brought out yesterday before the Senate investigating committee, when J. Boxhall, fourth officer of the Titanic, told of his unsuccessful attempts to attract the stranger's attention. This vessel, according to Boxhall, could not have been more than five miles away, and was steaming toward the Titanic. So close was it that from the bridge Boxhall plainly saw its masthead lights and side lights. Both with rockets and with the Morse electric signal did the young officer hail the stranger. Captain Smith and several others in the vicinity of the bridge declared at the time their belief was that the vessel had seen them and was signaling in reply. Boxhall failed to see the replies, however, and, in any case, the steamer kept on its course obliquely past the Titanic without extending aid.

Chicago Survivors Criticize Officers

CHICAGO, April 23.—Mrs. F. M. Warren and her daughter of Portland, Ore., survivors of the Titanic wreck, arrived in Chicago last night. Warren was one of the victims.

Mrs. Warren said she and her daughter were placed in a boat which could have accommodated twice as many people, but notwithstanding this fact, Warren was not allowed to accompany them.

AGREEMENT OF NATIONAL MARINE ASSOCIATION

HAMBURG, April 23.—The National Marine Association has forwarded an appeal to the foreign office in Berlin to convene an international conference to draft regulations regarding the life-saving equipment of ocean-going vessels.

SAYS WIFE WANTS HIM IN ASYLUM

Declaring that his wife is attempting to railroad him to an insane asylum, Harry Walker of 2502 Twenty-fourth avenue, today obtained a hearing before Superior Judge Ellsworth and Mrs. J. H. Todd and E. A. Majors.

Mrs. Laura Walker swore to a charge of insanity, declaring that her husband had threatened to commit suicide, that he turned off the gas and water connections in their home, and smashed crockery on different occasions. She says that he refused to live with Mrs. Mable Carter, his daughter, who recently came here from Joliet, Ill.

Walker maintains that he is perfectly sane, but that his wife is attempting to get hold of some property belonging to him and get out of the way. He called twenty-five witnesses in his behalf at the hearing this afternoon.

At the conclusion of the testimony Judge Ellsworth, without comment, dismissed the charge of insanity against the defendant.

MONKEYS THAT ARE ALMOST HUMAN

EMPEROR AND EMPRESS IN THEIR SUNDAY BEST AT THE BELL THEATER THIS WEEK.

There is perhaps no better trained pair of monkeys in the world today than Emperor and Empress, who are entertaining their friends at the Bell Theater this week in a real monkey act that is decidedly entertaining. Emperor—man that he is—smokes his pipe, orders his meals, acts like a human, occasionally reverting to the primitive, and altogether does many things monkeys are not generally supposed to do.

TELL OF SLAYING OF AMERICANS IN MEXICO

Forty-Seven Refugees Arrive at Galveston; Torture and Destruction Reported

GALVESTON, April 23.—Forty-seven passengers, all but one citizen of the United States, who arrived today from Vera Cruz on the steamer Texas, told of alleged torture and assassination of Americans in Mexico. All the refugees left their lands, homes, furniture, and everything they possessed except enough money for passage and the clothes on their backs. Among the entire number there were only four or five trunks.

M. H. Ish, one of the refugees, told of the murder of an American citizen named Watt.

"Watt was a neighbor of mine," said Ish. He had sold several head of cattle and hidden the money. Desperate men came to his house and demanded money. Failing to get it they beheaded him with their machetes, herded his cattle together and drove them off. There are many instances just like this.

COLONY BROKEN UP. "We lived in a little settlement where a colony of eleven American families had founded the town of Sanburn. All departed because we were afraid to remain longer, knowing we should be killed or tortured."

"I went to Mexico one year ago, not all I had, \$1000. In land and improvements there and today I have only my two hands and the clothes on my back. Refusing leaving, we filed our claims for damages with the American consul in Mexico City."

John T. McGee, a wealthy planter, who went to Mexico two years ago, returned to America minus more than \$20,000 and left behind land and live stock. Mr. McGee tells of alleged cruelties practiced on an American woman, Mrs. Shay, now in the hospital at Mexico City.

MANY SUFFERERS. "What has been true of the Shay family," said Mr. McGee, "has been likewise true of scores of other Americans, and by staying there we took our lives in our hands." The bandits are everywhere. The Mexican government is not able to quiet them.

Many Americans believe the Madero forces so dislike the Americans that they rather would permit outlawry than try to stop it. Whenever rumors are near the bandits disperse, but there rarely is a shot fired."

Practically every man on board the Texas had a similar story to tell of experiences in Mexico. Two men who rode horseback into Vera Cruz after abandoning everything they owned tell of meeting four armed bandits in a narrow pass.

DESOLATION GENERAL. "The only reason we are here," said one of the men, "is that we were lucky

enough to beat them to it. Everywhere you go except right in the largest cities you will see deserted farms, houses burned, livestock stolen and in many instances the decaying headless bodies of their owners are left lying about."

The bandits are in such large numbers and so scattered over the interior that to resist them is useless. We Americans had to give up everything to them when they came to the settlements, no matter how well armed we might be."

Sanburn, the place where the refugees say some of the alleged atrocities occurred, is in the state of Vera Cruz, 13 miles northwest of Santa Lucetita. It is on the Vera Cruz and Isthmus Railway across the Isthmus of Tehuantepec and is listed as a railway and telegraph station.

THREATENED BY REBELS. TUCSON, Ariz., April 23.—San Blas, one of the most important towns in Sinaloa from a railroad standpoint, is now threatened by rebels, according to information reaching here today. It was stated a large band of revolutionists had camped near the city.

San Blas is the junction point of the Southern Pacific in Mexico, the Mexico and Kansas City, and the Mexican and Orient roads.

BATTLE EXPECTED. TUCSON, April 23.—A battle between federalists and rebels near Culiacan, capital of Sinaloa, is expected any time. A dispatch received here today stated General Ramon Ibanez, commanding four hundred soldiers, was marching upon Culiacan with the intention of wresting the city from the rebels, and that a column of the revolutionists had left the city to intercept the advancing federalists.

NEW YORK, April 23.—The suggestion that the Titanic struck a ledge of rock and not an iceberg is made in the current issue of the Nautical Gazette, a weekly shipping paper. The possibility of such an accident is urged because the ship struck in the same longitude as the half-submerged Virgin rocks to the north and possibly in the same spot where the Naronic foundered in 1912.

The Titanic, it is suggested, being the deepest ship of the seas, might have hit a rock that other ships have passed over safely. The Gazette says that at least a survey of the place should be made by the United States government. Under the head of "What Did She Strike?" the Gazette says:

"A strange possibility arises from the coincidence in proximity or position of the Titanic and the Naronic disasters. The position where the Titanic met her doom was latitude 41.46, longitude 50.14. "This is south of the Grand Banks, but in just about the same longitude as the dangerous semi-submerged Virgin rocks to the north of the banks. While the banks of Newfoundland are supposed to be made of the sands from the Gulf of St. Lawrence and the action of the gulf stream, the existence of the Virgin rocks and even the proximity to the surface of the Georges Shoals, nearer the coast, shows that even in this district of the Atlantic there may be submerged ledges of rock never hitherto discovered."

BOOK TRUST IS UNDER SUSPICION

SACRAMENTO, April 23.—Dr. Frederick Burk, president of the State Text Book Commission and member of the State Board of Education, declared today that the proposed initiative amendment to the constitution recently launched by the State Council of Education, composed of the elementary school teachers, without doubt the instrument of the book trust for the purpose of defeating the Shanahan amendment which proposed free text books for the elementary schools.

"If this amendment is jammed through," says Burk, "it will mean that more book must be purchased, because every county board and every city board will have the power to select its own series."

"It would mean, in short, that the boards of education and teachers in every county would be at the mercy of the book agents."

"This council of education amendment was approved by a vote of 28 to 1 and there is no doubt that it was packed in the interest of the book trust."

ANOTHER BIG SALE ON 16TH STREET

The Layman Real Estate Company reports the sale of a lot 75x103 feet 9 inches, situated on the south side of Sixteenth street, fifty feet east of Jefferson street. The seller is Jacob Frederick and the buyer Robert Dalsler. The price paid for the property was \$50,000.

This adds another to the long list of recent sales on Sixteenth street, which is destined to be the next street ready for retail business. Dave McLaughlin, of the C. J. Heeseman Company, who recently purchased 37 1/2 feet, directly adjoining this last property, is planning to build immediately upon his lot.

Mr. B. Malden of the above firm represented all parties in the transaction.

OAKLAND'S '400' MEETS AT CARDS

Ebell Club held its mammoth card party this afternoon at 2 o'clock when nearly 400 fashionable gowned women gathered at the clubhouse for bridge and 500 games. The tables were adorned in California poppies, and greens of all kinds were used in profusion in the decorative scheme. There were 90 tables in all and the affair was especially enjoyable. A group of young girls assisted for the afternoon. They were Miss Elva Ghirardelli, Miss Junetta Ghirardelli, Miss Marjorie Adams, Miss Harriet Walsh, Miss Genevieve Glenn, Miss Annie Engstrom, Miss Cio Pozzi, Miss Alice and Martha Earl, Miss Margaret Black, Miss Marjorie Coogan, Miss Helen Coogan, Miss Gertrude Adams, Miss Marion Miller, Miss Katherine Bangs, Miss Rachel Gennings, Miss Marion Rock, Miss Louise Funtley, Miss Doris Hadley, Miss Marion Welbe, Miss Pauline Adams, Miss Pauline Chamberlain, Miss Marie McHenry, Miss Irene Farrell, Miss Myra Hall, Miss Adele Scott, Miss Ruth Smith, Miss Ardienne Dennison, Miss Lela Smith.

EXPLODING LAMP ENDANGERS THREE

The explosion of a coal oil lamp, throwing flaming oil over table, walls and bed in the bedroom of Mrs. E. Ochoa, 278 Third street, drove the woman and her two children panic-stricken from the burning cottage at about 2:40 this morning. The family narrowly escaped with their lives, as the interior of the cottage was a mass of flames within a few minutes after the explosion.

The fire was caused by the explosion of a lamp which had been left burning near the bed. The cottage was partially destroyed, as was that occupied by Al Sam, 350 Third street. Damage amounted to over \$1000. The fire was extinguished after a hard fight by the fire department.

TITANIC STRUCK ROCK, IS THEORY

The Nautical Gazette Suggests That Ice May Not Have Caused Wreck.

NEW YORK, April 23.—The suggestion that the Titanic struck a ledge of rock and not an iceberg is made in the current issue of the Nautical Gazette, a weekly shipping paper. The possibility of such an accident is urged because the ship struck in the same longitude as the half-submerged Virgin rocks to the north and possibly in the same spot where the Naronic foundered in 1912.

The Titanic, it is suggested, being the deepest ship of the seas, might have hit a rock that other ships have passed over safely. The Gazette says that at least a survey of the place should be made by the United States government. Under the head of "What Did She Strike?" the Gazette says:

Capt. Smith's First Wreck Experience

NEW YORK, April 23.—When he was in command of the steamship Adriatic in 1907, Captain E. J. Smith, who drove the Titanic to destruction and found his own tomb in the sea, in the course of an interview, said:

"When any one asks me how I can best describe my experiences of nearly forty years at sea, I merely say uneventful. Of course, there have been winter gales and storms and fog and the like, but in all my experience I have never been in an accident of any sort worth speaking about. I have seen but one vessel in distress in all my years at sea. A brig, the crew of which was taken off in a small boat, in charge of my third officer. I never saw a wreck and have never been wrecked, nor was I ever in any predicament that threatened to end in a disaster of any sort. You see, I am not very good material for a story."

"The love of the ocean that took me to sea as a boy," he added, "has never left me. In a way, a certain amount of wonder never leaves me, especially as I observe from the bridge a vessel plunging up and down in the trough of the seas, fighting her way through and over great waves, tumbling, and yet keeping on her keel, and going on and on—wonder how she does it, how she can keep afloat in such seas, and how she can go on and on safely to port. There is a wild grandeur, too, that appeals to me in the sea. A man never outgrows that."

Captain Smith always maintained that shipbuilding was such a perfect art nowadays, that absolute disaster, involving the passengers, was inconceivable. Whatever happened, he contended, would be time enough before the vessel sank to save the lives of every person on board.

"I will go a bit further," he added, "I will say that I cannot imagine any condition that would cause the ship to founder. I cannot conceive of any vital disaster happening to this vessel. Modern shipbuilding has gone beyond that."

An officer of the Adriatic who heard Captain Smith's remarks, said: "Don't forget when you write of the captain's 'uneventful' life to put in that it is the great captain who doesn't let things happen."

But the wisest and most capable captain cannot help letting icebergs happen. He can make a mistake, he can evade storms he can pick his way through, but the iceberg is marked by no red cross on the chart, and has no wireless, light-house or bell buoy."

Survivor of Titanic Weds in New York

NEW YORK, April 23.—One of the survivors of the Titanic disaster, Mary Roth of London, was married yesterday to Daniel Oles in St. Vincent Hospital. As children the couple had played together in London, and Oles came to this country to start in business.

When he succeeded he sent for his sweetheart, Mrs. Frederick W. Vanderbilt was among the many prominent persons who witnessed the ceremony.

Denies That Butt Went to Rome on Mission

WASHINGTON, April 23.—In response to a letter from Wm. J. Oliver of Knoxville, Tenn., C. D. Hill, secretary to President Taft, denies today on behalf of the President that Major A. W. Butt had been sent abroad on a mission to Rome. In part the letter reads:

"There is absolutely no truth in the report that Major Butt was on a mission to Rome," he said. "The sole object of his trip was the benefit of his own voyage and to add to the interest of his trip, the President gave him several formal notes of introduction to persons in Rome whom he knew."

Deny Steamship Struck an Iceberg

CHICAGO, April 23.—Officials of the Allan Line Steamship Co. today flatly deny the story of passengers on the steamer Corsican that the vessel struck an iceberg April 12 on its western voyage.

"The Corsican undoubtedly picked its way through much floating ice," said H. F. Bradley, assistant passenger agent of the Allan Line, "but the statement that the ship crashed into an iceberg is absolutely without foundation in fact and could only have originated in the excited imaginations of some nervous passengers."

NEW ASTOR WILL TO BE FILED

NEW YORK, April 23.—It became known today that a New York law firm will file for probate within a few days the will of Colonel John Jacob Astor, who perished on the Titanic. It is understood this is a comparatively new will, made after Colonel Astor's marriage to Miss Forges. The lawyers refuse to give any details as to the disposition of the estate, which is estimated at \$125,000,000.

At the time of his second marriage, Colonel Astor settled \$5,000,000 on his bride in view of which it is understood she relinquished her dower rights in order that the estate might remain intact. As provision has been made for the first Mrs. Astor, lawyers say the bulk of the estate will go to Colonel Astor's son Vincent, who will keep it intact.

Suggests Monument to Unknown Heroes

EDITOR PRIBUNE: Doubtless many monuments will be erected to the memory of noted men who so heroically sacrificed themselves in the Titanic disaster. I offer a suggestion. Would it not be a fine thing for the women and children of the bay cities to erect a monument in memory of the unknown heroes of the Titanic—men whose names are forever blotted out from the records of time? These men, left a great example. Whatever of blessing may come to the world through the survivors will be a debt to those. Again I suggest the women and children of the bay cities erect a monument to their memory. It seems to me a very appropriate place would be some prominent point on the campus of the State University. There is no monument in that locality which appears to the spiritual or ethical side of humanity. Or perhaps some conspicuous site in Mountain View Cemetery might be selected, should the campus site not be approved. Could anything be more beautiful than a monument of pure white marble (the work of one of our California sculptors) fashioned in the form of an iceberg, with such such a inscription as this: "To the Unknown Heroes of the Sea Who Died for the Women and Children of the Titanic, in the North Atlantic Ocean, April 15, 1912. "Greater love hath no man than this."

Erected by the Women and Children of the Bay Cities. Women and children only should contribute towards this monument in commemoration of the unselfish devotion and splendid courage of these nameless heroes. Very respectfully, H. M. FOULONNIER.

Summary

The summary of the gas and electric properties as submitted shows: Total gas property including real estate, gas plant and gas distribution system, a value of \$3,988,951; electric properties, including real estate, sub-stations, both overhead and underground distribution systems and miscellaneous property, including electric meters, \$7,126,444.

The total value of real estate shown is \$1,933,730, of which \$395,252 is charged to the electrical department, and \$635,448 is charged to the gas department. The generating capital for the Oakland gas plant is stated at \$1,029,485, and the transmission capital for the same plant is shown as \$78,194, or a total of \$1,107,679. The total distribution capital is given as \$2,347,103.

The value of the electric sub-station not including Station C, is as follows: A and B, \$376,531; D, \$216,527; E, \$63,566; H, \$167,130; I, \$72,146. Grand total electric sub-stations, \$886,600.

The overhead system for electrical distribution is given as \$1,029,485, and the underground system as \$454,705. Electric meters and miscellaneous, \$287,728, with the miscellaneous tools and appliances on all electric departments being \$20,100.

The segregation of properties between gas and electric is based on the gas revenue and 45 per cent electric revenue.

COUNCIL TO PLACE VALUE ON PLANT

At a special session of the city council to be held tomorrow afternoon, the valuation of the plant of the Pacific Gas and Electric company will be taken under consideration on the basis of a statement filed with the council this morning by T. C. Gillespie, an appraisal engineer associated with J. G. White & Co. of New York and San Francisco. Gillespie was appointed by the council at a recent meeting to prepare such a statement as a basis for fixing rates for gas and electric current to be sold to residents of Oakland during the coming fiscal year.

The letter and statement are as follows: To the Honorable Mayor and Commissioners of the City of Oakland, California. Gentlemen: In compliance with your request for a statement from me of the value of the property of the Pacific Gas and Electric Company, within the corporate limits of the city of Oakland, as found by us in our recent inventory and appraisal, we beg to inclose herewith a summary of our full inventory, which, omitting Station "C," according to the understanding that this was not to be included as a part of the Oakland property, shows a value of \$7,195,434.

This figure, however, does not allow for any reduction which may have been made in accordance with the discussion between your honorable board and F. A. Leach, Jr., district manager, relative to that portion of the gas manufacturing plant used for the production of gas sold outside the corporate limits of the city of Oakland, as this is a matter which rests entirely between the company and your selves.

It was our desire to give you more detailed information than that contained in the digest of our appraisal herewith attached, and which is practically a copy of that which we have previously supplied to you for your use. But owing to the mass of detail, we found it would be impracticable, and would, in fact, only have a tendency to confuse you still further.

We have in our office full details of the completed inventory, and in accordance with your request, we beg to inclose and Mr. Leach, should be glad to have you or any parties you may designate, call and make such studies of these details as may be desired by you.

Assuming you of our assistance and co-operation in this matter, trusting that the information herewith will answer your purpose, we remain, yours respectfully, J. G. WHITE & CO., INC. (Signed) T. C. GILLESPIE, Appraisal Engineer.

Envelope Trick
IS MONEY MAKER

Smooth Stranger Works Old Dodge in Oakland to Il-legal Tune of \$60.

The Federal as well as the police authorities are on the trail of a smooth confidence man who raised \$60 in little more than half an hour Saturday afternoon by means of the old trick of switching envelopes.

The film star artist first appeared at a motion store kept by Mrs. H. M. Thomas at 1223 Twenty-fourth street. He held an addressed envelope and asked for two ten-dollar bills that he might send away. Counting the change that the man presented, Mrs. Thomas found only \$16.70. Meanwhile the stranger had placed the bills in the letter.

"See I'm short a few dollars," he exclaimed in a low voice, and he took back to the house. The man replaced his change in his pocket and disappeared. Mrs. Thomas finally became suspicious and opened the letter. It contained a cartoon of Mutt and Jeff and was addressed to a fictitious address in Fruitvale.

DOUBLES STAKES.
The stranger, thus far successful, went to the branch postoffice at Fourteenth and Cypress streets and doubled the stakes, asking and receiving a money order for \$40, payable to C. H. Hollis of Fruitvale. Insuring the order and the letter and presenting this time \$56.40. The clerk, Thomas Scozzafava, called the man's attention to the shortage and the stranger was obviously annoyed.

"That's all she gave me," he protested. "Here, just hold this letter while I go back and get the rest." The clerk came back and the clerk finally got permission to open the envelope and examine the contents of the money order. Postmaster Shafer was hopeful this afternoon that a man caught in San Francisco, on the same sort of trick, will prove the one wanted here. The culprit is described as being a young man, smooth-shaven, wearing a dark hat pulled well over his face. Shafer also calls attention to the fact that it was in the same vicinity on the following day that Police Officer C. A. Williams was shot by a young man who he had arrested as a suspicious character.

IS THIS THE MAN?
SAN FRANCISCO, April 23.—A new dodge was successfully worked by a clever confidence operator who victimized Ernest P. Deeds, a clerk in the pharmacy of 4300 18th street, conducted by J. J. Frisbee, yesterday. The culprit, however, had little time to enjoy the fruits of his scheme and was arrested this morning by Detectives Harrison and Cronin, and charged with petty larceny by trick and device. He gave the name of Elmer Winger.

Deeds was approached by a man who gave his name as George Mullins and he agreed to purchase a pair of shoes for \$20. When it had been made out, he tendered \$40 in payment, and asked the clerk to keep the order for him until he could get the other \$10. He then apparently put it in an envelope and handed it over. When he left Deeds was curious, broke the seal, and found only a blank piece of paper.

ST. JOSEPH'S COUNCIL PLANS ANNUAL DANCE
St. Joseph's Council No. 60, Young Ladies' Institute, will give its third annual dance on Thursday night, April 25, in the hall, Harrison street. The council will be assisted in the affair by the members of Cabrillo Council, Young Men's Institute.

Arrangements for the affair are in the hands of the arrangements committee, consisting of Mrs. F. J. Oliva, president; Mrs. L. Rogers, Mrs. R. D. Beilbatter, Miss Marie Corea and Miss Ida Ponte, and the officers, who are the following: Chaplain, Rev. J. Gall, past president; Mrs. B. Plimont; president, Mrs. F. J. Oliva; first vice-president, Mrs. M. Souza; second vice-president, Mrs. M. Souza; marshal, Miss M. Souza; outside sentinel, Mrs. T. Wilson; inside sentinel, Miss Ida Ponte, recording secretary, Mrs. F. Walters, financial secretary, Miss A. Marko; treasurer, Mrs. L. Rubin; trustees, Mrs. Perry, Mrs. Stroyan, Miss M. Corea.

DUTCH-AMERICANS INVITE ASSISTANCE
The Chamber of Commerce has been asked to aid the recently formed Holland-American Chamber of Commerce for the Pacific coast, with headquarters in San Francisco, in its object of fostering the trade between the Netherlands and its colonies with this coast. It also is expected of the new body that it will encourage investment of Dutch capital in this territory and the right kind of immigration.

ANDERSON RESIGNS.
SACRAMENTO, April 23.—Because he found that he could not give the time he desired to act as head of the Sacramento Chamber of Commerce, Alden Anderson yesterday tendered his resignation as president, to take effect immediately. Anderson has been in office several months and took the appointment against his will.

The Economical Cooking Fat
There is both economy and solid satisfaction in cooking with Cottoleone. Not only is it more economical than either butter or lard—one-third less being required—but it can be used in fine cakes and pastry with every bit as good results as butter, and for frying it excels lard or other cooking fats.

Unlike lard, Cottoleone makes food wholesome, nourishing, digestible. It is made from Cottontail Oil, the use of which Dr. Wiley so strongly has recommended.

Cottoleone shortens your food—lengthens your life, and saves you money at the same time.

PHYSICAL EXPERT NAMED FOR CITY

C. F. Martin to Pass on Tests Required by Civil Service Board.

That the physical tests of efficiency which have been made prerequisite to other qualifications for employment in city departments under the civil service board may be handled systematically, C. F. Martin, physical director of the Oakland Young Men's Christian Association, has been appointed chief physical examiner for the civil service board. Martin has accepted the place and for the present has consented to serve without compensation.

Martin will make a study of the physical needs of the police and fire departments of the city for the purpose of installing suitable systems of exercise for the men, designed for keeping them up to a certain standard of physical condition at all times during their service with the city.

A recent announcement of the board that a fit physical condition would be made a requisite for maintaining positions in either department has already started many policemen and firemen on a course of training, but it is understood that a scientific system such as will be inaugurated in the near future will go much further in producing the desired result than the possible spasmodic and haphazard exercise the men may take without proper direction and in this regard the board has been fortunate in securing Martin's services.

Promotional examinations are to be held in the police department on May 10, when vacancies are to be filled and eligible lists created for the positions of corporals, sergeants, acting inspectors, inspectors, lieutenants and captains of police. A part of the examination will be tests of agility and muscular strength and it will be as necessary for the applicants to pass these tests as it will be to pass the mental examinations and medical tests.

It is probable that the physical tests will not be as severe in the promotion as in original entrance, but it will be strong enough to test the men's capacity for such work as is required of a well set-up guardian of the peace. The examinations as a whole will also fully test the applicant's fitness for promotion. Martin and fitness will be the absolute standards of promotion.

In the furtherance of the plans he has outlined, Martin is making a study of the police and fire departments and preparing a schedule of physical tests to be used in promotion. He is also in correspondence with the police and fire departments and civil service boards of all the leading cities of the United States and of England, France, Germany and Sweden in an effort to learn the best of physical efficiency, recruiting tests, training courses and efficiency tests relative to promotional standards.

The Civil Service Board is also anxious to secure the services of an active and aggressive young physician who will devote a portion of his time to a study of the medical needs of policemen and firemen in something of a similar manner to which Martin is bending his energies.

WRECK NO EXCUSE FOR AGNOSTICISM

Tribune Reader Differs From Rev. Dr. Simond's Short Sermon.

EDITOR TRIBUNE. I was not a little surprised on reading the "Short Sermon for Busy People" in last Saturday's TRIBUNE to find that Rev. Dr. Simond finds a reasonable excuse for agnosticism in the loss of the Titanic and the drowning of 1500 or more human beings. If I were a preacher, and I say proudly that I am a Christian preacher, I could find no valid reason for agnosticism in such disasters nor in any of the problems which seemingly so burden the present and darken the future of our race.

The power, call it what we may, that evoked the mighty waters by orderly methods and changeless laws. Then why should the agnostic fail to see goodness and wisdom in the universe because the greed of the owners and the stupidity and vanity of the captain of the Titanic rushed her with great force against a monster iceberg?

If God were to suddenly change the nature of water so it will not drown and of iron so it will not sink; in short, if He were to save human beings from their avarice, inefficiency, and stupidity, He would put a premium upon these qualities and humanity would never learn the lesson of adjusting itself to the laws of the universe.

God has given us brains with which to study his laws, and we are to understand them and obey them no such calamity as the one under consideration can happen.

If the agnostic were as logical as he thinks he is and as he sometimes gets credit for being, it strikes me that he would see that we are here to learn how to live, here to make this world a paradise of bliss instead of a sepulcher of sorrow, here to cultivate our natures and to develop our souls, so that when earth's pilgrimage is over we will be able to comprehend the marvelous world through which we have passed and understand something of the spiritual forces by which we are bound. A Week of Special Sales

Offering Many Money-Saving Opportunities

Tomorrow we inaugurate a week of special money-saving events with the purpose of breaking our first month's sales records in the new store. A difficult task, we'll admit, so great was the pace set our opening month—but we're not going to be satisfied until more and more people each day become acquainted with the value-giving methods, varied stocks and shopping conveniences of the new Capwell's. To this end vigorous action was taken in planning this week of remarkable special sales and every item was priced to save you money. Coming while you are in the midst of your Spring shopping, the great savings offered cannot fail to receive your fullest appreciation.

Tomorrow we offer the First Budget of Good Things
Watch the Papers for Further Important Items

A Half-Price Sale of Thirty Dresses

\$15.00 Values for \$7.50

No indeed, it would not pay to buy the material and have your afternoon frock made when you can buy it at this price.

When we say a Half Price sale of Dresses and quote the values at \$15 we are extremely conservative. As a matter of fact, these same dresses may be truthfully quoted at a much higher valuation. We bought them at a favorable concession for a former sale and marked them so low, a quotation of their real worth might have seemed an exaggeration to those unfamiliar with our advertising policy—which permits of no inflation of values. There are just thirty left of the large number purchased, and to clear them out quickly another deep price-cut has been made which makes them a most wonderful bargain.

The materials are striped messalines and fancy foulards and they are here in white and black, navy blue and other pretty Spring shades.

They are made in charming styles and have pretty trimmings of lace, contrasting colored silks, pipings, fancy buttons, panel front and tunic skirts. And apart from the smartness of the style they are so well made as to please the most critical woman. Be sure and see them tomorrow.

(Second Floor)

Fifty \$20 and \$25 Suits

On Sale for \$15

The woman who wants to save on her new spring suit should not miss this opportunity to get the worth she would like to have in a suit at so low a price.

The models are unusually attractive and look every cent of the values quoted.

Materials are light mannish suitings in tan, gray and blue, and navy blue and black serges, the latter lined with Skinner's satin.

The lighter materials are made in fancy styles in the one-side effects. Short coats with long revers of plain materials in contrasting colors.

The darker colors are in jaunty plain tailored styles. Misses' sizes 13 to 18. Regular sizes 34 to 44.

Three Items of Rousing Interest in Wash Goods

Every woman busy with spring and summer sewing will take pleasing note of these:

OAKLAND DOGS CARRY OFF HONORS AT MANY SHOWS

PRIZE DOGS—(TOP) PAT H. P. N. HANRAHAN OWNER; CHAMPION MISSION ROUE, MRS. T. KIELHOFFER OWNER

Oakland owned dogs have been carrying off additional honors in the bench shows of Oregon and Washington, according to word received here by their owners, especially the dogs owned by P. N. Hanrahan and Mrs. Ted Kielhofer. In the shows of Portland, Seattle and Everett, the dogs have remained supreme as champions of their classes and are coming home with many new blue ribbons.

Champion Pat H., champion Irish setter owned by P. N. Hanrahan, has been exhibited in Seattle where he was pitted against three other champions, those of British Columbia, Washington and Oregon. There he defeated all three dogs, and is now the undisputed champion of the Pacific Northwest. The champion who went down to defeat were Champion Bow of Oregon, Champion Potent C of Washington, and Champion Wentworth Prince of British Columbia. The first used Champion Bow has never before been defeated, although he has been benched for the past three years.

Following his winnings of four championships, Champion Pat H. will be taken

to New York this fall where he will be exhibited at the national dog show.

LIST OF WINNINGS.

The complete list of winnings of Pat H. previous to his northern winnings, as follows:

1909—As Pat, 1 novice, 1 hm, 1 op, 1 win, Oakland. Judge Harry Lacy, three points.

1910—1 winners, San Francisco. Judge Ben Lewis, four points.

One winner, A. of California. Judge James Watson, four points.

1911—One winners, Del Monte. Judge Jack Bradshaw, two points. As Pat H., 1 winners, San Francisco. Judge Charles Hopton, four points. One winners, Mill Valley. Judge Tom Blight, three points.

One winners, San Mateo. Judge Tom Blight, four points. One winners, Oakland. Judge Miss Arnold, two points.

1912—One winners, San Francisco. Judge James Mortimer, five points.

Total—31 points.

Mrs. Ted Kielhofer's Champion Mission Roue, parti-colored pointer, had been a winner in the shows of Portland, Seattle and Everett. Together with Lady Cosette, also parti-colored pointer, and Champion Fearless Glory, black bitch, Champion Mission Roue was brought home to Mrs. Kielhofer a number of blue ribbons in previous shows.

DEPOT WRECKED BY FREIGHT TRAIN

WILLIS, Kan., April 23.—A north-bound Missouri Pacific freight train jumped the track and crashed into the depot here today. Peter Gayardo and Frank Lopez, railroad employees, who were on the depot platform were buried under the wreckage. Gayardo was taken out dead. Lopez's injuries are fatal.

The depot caught fire and the locomotive and eight cars were burned. The fire threatened to destroy the entire town and the schools were dismissed. The women formed bucket brigades and assisted the men in fighting the fire.

PLAYS ROOSEVELT ON FLOOR OF HOUSE

WASHINGTON, April 23.—Representative Campbell of Kansas (Republican) made a bitter attack in the House yesterday on Colonel Roosevelt. The speech was in reply to an attack on him by Colonel Roosevelt during the latter's tour through Kansas.

"He brands every man as an infamous scoundrel whom he cannot force into serving with him," said Campbell.

He said he wanted to ask Roosevelt two questions: If he did or did not send a note to the Department of Justice asking that further steps for the prosecution of the Warrenton Trust be suspended and if he did or did not deny the "maelstrom of great wealth" and then, in the night, in a private conference with the heads of the Steel Trust and the Tennessee Coal & Iron Company agree that they should be united for their own benefit.

BANK CREDITORS TO GET \$45,841

An additional \$45,841 will be paid to the creditors of the California bank, a defunct institution, on June 1, according to a special report and petition filed on April 20, by James P. Edoff, receiver. The matter was taken before Superior Judge Harris this afternoon, who passed upon the matter favorably. Edoff said in his petition that he has only to collect an amount of a little over \$3000 in order to make the payment, which will amount to another 5 per cent. Costs of the administration from now until June he estimates at \$300.

DEPOT AT SIXTEENTH STREET SOON READY

The Southern Pacific company's new depot at Sixteenth street station will be completed and ready for occupancy in a few weeks. The contractors finished up their work Saturday and the big building is now in the hands of the interior decorators. For several months the work of the structure has been rapidly progressing, and soon will be completed.

The new cross-town electric service of the Southern Pacific, which was given its initial run a month ago, is proving highly successful in the matter of service and the large number of passengers who are whirled over the route in a ten-minute schedule is in operation. The terminal point is at the Sixteenth-street depot, where a permanent platform will be erected with the completion of the new depot.

AUTO PLEASED HER MORE THAN BUGGY

Mrs. M. M. Hartman Liked Joy Rides, Says Husband, Who Obtains Divorce.

A horse and buggy did not go fast enough for Mrs. M. M. Hartman and she got into the habit of going on joyrides with other men, so her husband, James A. Hartman, got an interlocutory decree of divorce from her late yesterday.

Hartman told the court that he had done everything within his power to make his wife happy. She used to pose in a Los Angeles department store for \$2 per hour, he said. In return for his attention she is said to have been indifferent to him. Hartman bought her a horse and buggy for her pleasure, but other men and automobiles appealed to her more strongly.

Mark C. W. Verma was roundly abused by Lucy M., his wife, according to testimony upon which he obtained an interlocutory decree. She was in the habit of throwing slatons at him and slapping his face when things did not go to her liking, he said.

Allen M. Gaston obliged his wife, Melissa, by staying at home and listening to her tell of escapades with other men before they were married as long as he could stand it and yesterday he succeeded in having their marriage annulled.

Cora Hinchey secured an interlocutory decree from Harry on the grounds of cruelty.

Willie W. Morris is seeking a divorce from Edward W. Morris, charging neglect.

ENTERTAINMENT GIVEN BY CHURCH MEMBERS

ALAMOGA, April 23.—The two nights of dramatic entertainment given at Hampton hall on Haight avenue, by the members of the Santa Clara Avenue Methodist church proved a financial and social success, outstripping anything ever before attempted by the church and setting a new mark of enthusiasm and endeavor for the congregation. The proceeds of the affair are to be devoted to the financial assistance of the board in its church work.

Miss Matilda Strauss, a sixteen-year old girl, was the recipient of much praise for her vocal work, and expressions of future prominence as an artist were heard on all sides.

Miss M. Anderson, a leading soprano of the First Presbyterian church choir, and prominently identified with the work of the California Girls' Training home of the West End, was also heard to good effect in several vocal numbers.

A reading by Miss L. Owen, of Berkeley, was well received and roundly applauded.

In a dramatic farce, the work of the young thespians, was also received with much enthusiasm, and was pronounced the most meritorious endeavor by a church society of young people, ever attempted in the section.

Find Wealth Buried On Pennsylvania Farm

ALLENTOWN, Pa., April 23.—Instructions left in a sealed packet to the heirs of Miss Sallie Benninghoff of this city, who died two weeks ago, to dig up the ground of her two farms near Levy, at places described, resulted in uncovering over \$2000 in gold and bank notes which she buried. The finding of the money solved the mystery of a strange light which neighbors had often seen in the meadow of Miss Benninghoff at night.

Miss Benninghoff, who was 87 years old, left about \$50,000 in farms and securities to her nieces and nephews.

ZOLLIE CLEMENTS ENTERS PLEA OF NOT GUILTY

STOCKTON, April 23.—Zollie Clements charged with the murder of William H. Newman, to which he confessed following his arrest in Sacramento, but subsequently repudiated, entered a plea of not guilty this morning in Judge C. W. Norton's court. His attorney asked that the trial be delayed as long as possible, as it would take considerable time to collect evidence and shape the defense. When Judge Norton suggested June 1 the attorney interposed an objection but was overruled, and the case set for that date.

BUSINESS ZONE MAY BE CREATED

Council Plans to "Rope Off" the Industries Objectionable to Residence Districts.

Amendment to State Constitution to Be Introduced by City of Oakland.

Creation of industrial zones, to which certain businesses objectionable to residence districts will be allotted, is to be attempted by the city of Oakland. The matter was taken up by the city council this morning and Mayor Frank K. Mott instructed the city attorney to make a careful study of the rights of the city with a view to introducing an amendment to the State Constitution of California to make it possible for the municipalities to pass laws creating such zones.

At the present time laundries, bakeries, breweries and other businesses encroach upon residence sections, and the council is without power to prevent this, according to the opinion rendered by the city attorney's office.

MANY PROTESTS FILED.

Many protests have been filed from time to time against laundries and other similar nuisances in residence districts but the council has been prevented by provisions of the state constitution from passing remedial legislation.

Commissioner Fred C. Turner asked an opinion from Assistant City Attorney Beardsley this morning as to the right of the city to declare certain businesses to be objectionable and prohibited in certain districts.

"A business is not a nuisance merely because the council may declare it so," said Beardsley. "You cannot interfere with a man's business. Protection of a man's property is specifically provided for in the fourteenth amendment to the Constitution of the United States."

The Mayor pointed out the desirability of creating business zones and directed the city attorney to investigate this matter.

At the present time, San Francisco and other cities have the state constitution amended to give cities the necessary powers to create industrial zones.

TWO CELEBRATIONS SOUGHT FOR CITY

Admission Day Gathering and Engineers' Convention Wanted.

Oakland as headquarters for two big celebrations was advocated by directors of the Chamber of Commerce this morning. One is the 1913 official celebration of Admission Day, September 8, which represents the coming of local white settlers to the Golden West and the other is the next convention of the International Brotherhood of Engineers, to be held in 1914 or 1915.

The former matter is in the hands of the Alameda County 1913 Admission Day Boosters' Committee, composed of Messrs. N. S. C. W. and N. D. G. W. parlor, who are now attempting to secure the endorsement of the movement at the annual convention of the orders in Fresno.

The local good men's gathering will be the next biennial convention, for which Stockton, San Francisco and Oakland are all planning. J. Jordan, Oakland delegate to the convention of this year in St. Louis will work for Oakland.

The chamber was also asked this morning to pass resolutions urging the recognition of the new republic of China by the United States government at this "critical diplomatic moment"; to endorse a proposition for the construction by the government of a flood water canal from the San Joaquin river, near Pollock; to recommend the passage of the bill in Congress for the construction of consulates by the government in the City of Mexico; Tokyo, Japan; Bern, Switzerland; and Hankow, China; and by the National Rivers and Harbors Congress to express itself on the matter of free tolls for American coastwise vessels passing through the Panama canal. All these projects were referred to committees for consideration.

Efforts to increase the revenue of the chamber through its special service fund were also considered and Directors R. M. Ayres, H. A. Mosher and Henry Wickham added to the special committee to secure additional subscriptions.

The following new members of the chamber were elected: Albert Gilbert, Will D. Simonds, Alex. Laplace, Jules Albrecht.

MODESTO MAN TO BE PASTOR HERE

Rev. W.-H. Wheeler Is Named
Successor of Rev. Trivett
at Advent Church.

Upon the recommendation of Bishop William Ford Nichols, the vestrymen of the Church of the Advent of East Oakland, have selected Rev. William H. Wheeler, rector of St. Paul's church of Modesto to be the successor of Rev. Jerome K. Trivett, who retired from the ministry.

The selection was made at the last regular meeting of the vestry, which was held last Tuesday evening in the church. The clerk of the board of trustees, Alec Ireland, has notified the clergyman of the decision and he has been given twenty-five days in which to express whether he will accept the pulpit or not. In the event that he will think favorably upon the East Oakland parish, an election will be held after the lapse of that period and he will be installed as pastor of the church.

Rev. Mr. Wheeler is expected here next week, when his term in the church will expire. He will preach in the Church of the Advent, Sunday morning, May 4. Until suitable quarters may be found the rector will be the guest of Mr. and Mrs. George Babcock, of Highland Park, East Oakland.

SIMPLER SERMONS NEEDED, HE SAYS

Rev. E. J. Bradner Blames the
Pastors for Light Church
Attendance.

That the sermons preached by ministers are too often unintelligible to members of the congregations, was asserted by the Rev. E. J. Bradner, pastor of the Grace Methodist church of this city, as one reason for light attendance. Dr. Bradner told his fellow ministers at a meeting of the Methodist preachers here this morning, "We complain because children are not interested in our sermons. One reason why children do not attend church more regularly and in greater numbers is because our sermons are unintelligible to them. We become verbose in the treatment of our themes, unnecessarily so, using words not commonly used during other days of the week. This may be one of the reasons why men do not run after sermons nowadays."

"Many of our people do not read the bible, or reading if they skim over it as though it were a novel."

DOG ORDINANCES START SQUABBLE

University Men Clash Before
the Berkeley City Council
Over Muzzling.

BERKELEY, April 23.—Philosopher and scientist matched wits across a crowded lobby at this morning's session of the city council when Dr. W. A. Sawyer, head of the State Hygienic Laboratory, and George H. Howison, professor emeritus of the philosophical department of the University of California, fought pro and con the merits of the dog muzzling and quarantine ordinances. Numerous other members of the lobby also joined in the discussion, strong expressions of opinion being presented by both sides.

Miss Gladys M. Pennell offered a petition signed by 500 citizens protesting against the passage of the ordinance.

Dr. Sawyer detailed the investigations made of the cases of rabies in cities and the discussion, strong expressions of opinion being presented by both sides.

Dr. Sawyer detailed the investigations made of the cases of rabies in cities and the discussion, strong expressions of opinion being presented by both sides.

Professor Howison disbelieved the danger and doubted whether muzzling was a step in the right direction. He said that in general by declaring that they lacked logic in any intellectual pursuit outside their own. The coterie of Board of Health members in one corner of the lobby received the beating at his hands with smiles.

A. E. Moulton, Mrs. William Keith and Miss Gladys M. Pennell joined the discussion and opposed the final passing of the ordinance. Dr. Allan F. Sullivan, Dr. J. J. Reardon and Dr. Sawyer were the chief defenders of the proposed laws.

Woman's Suffrage Loses in Arizona

Senate Defeats the Issue by a
Vote of Seven to

HOW I ENLARGED MY BUST SIX INCHES IN THIRTY DAYS

After I Had Tried Pills, Massage, Wooden Cups and Various Advertised Preparations Without the Slightest Results.

A SIMPLE, EASY METHOD WHICH ANY LADY CAN USE AT HOME AND QUICKLY OBTAIN A LARGE AND BEAUTIFUL BUST.

BY MARGARETTE MERLAIN.

Well do I know the horrors and intense humiliation of being flat-chested, of having the face of a woman set on the form of a man; and I cannot and would not tell you how good I felt and what a terrible load was lifted off my mind when I first saw my bust had really grown six inches in size. I felt like a new being for with no bust I realized I was neither a man nor a woman, but just a sort of a creature half-way between.

With what pity must every man look at every woman who presumes to him flat chest—a chest like his own! Can

such a woman inspire in a man those feelings and emotions which only can be inspired by a real and true woman, a woman with a beautiful, well-rounded bust. Most certainly not.

The very men who shunned me, and even the very women who passed me carelessly, by when I was so horribly flat-chested and had no bust, became my most ardent admirers shortly after I obtained such a wonderful enlargement of my bust. I therefore determined that all women who were flat-chested should profit by my accidental discovery, and have a bust like my own I had been im-

Keep this picture and see your own bust posed upon by charlatans and frauds, who sold me all sorts of pills and appliances for enlarging my bust, but which did me no good whatever. I therefore determined my unfortunate sisters should no longer be robbed by those "fake" and frauds, and I wish to warn all women against them.

The discovery of the simple process with which I enlarged my bust six inches in thirty days was due solely to a lucky accident which I believe was brought about by Divine Providence; and as

at undergoing the same transformation. Providence was so good to give me the means to obtain a beautiful bust, I feel I should give my secret to all my sisters who need it. Merely enclose two 2-cent stamps for reply, and I will send you particulars free by return post.

NOTE—All ladies who wish to obtain a large and beautiful bust should write Madame Merlain at once, as the above is a honest, straightforward offer on her part, made for the good of her sisters, and she in no way profits by the transaction, but generously offers her help absolutely free to all who use the free coupon above. Ladies who fear that their busts may become too large are cautioned to stop the treatment as soon as they have obtained all the development desired.

TAKES CHARGE OF MATERNITY HOMES

The State Board of Charities Begins Crusade in the Interest of Children.

SAN FRANCISCO, April 23.—The State Board of Charities under the direction of Rabbi Martin A. Meyer, president, and W. A. Gates, secretary, yesterday stated a state-wide crusade against maternity homes that maltreat children, by securing an order from Superior Judge George S. Burdett of San Francisco, closing the doors of the so-called orphanage conducted by Mrs. Bertha Jullie at Loma Park. In this place, they testified, children under five years of age were found in a large, dirty pen, where no attention was paid to them.

Action was taken under a new law which gives the state control over all orphanages. Rabbi Meyer, Secretary Gates, Mrs. Emma W. Lillie of the Native Sons and Daughters' Central Committee of California, and Henry W. Lewis of the Children's Home Society of California yesterday appeared before Superior Judge Burdett, who is the jurist of the juvenile court at Redwood City, and made a lengthy report in which the conditions at the Loma Park were exposed.

President Meyer testified that the children of the institution, which numbered twenty-four, were uncared for, dirty and undisciplined. The ten girls and fourteen boys of the institution do not know their names, and those that are old enough to go to the neighboring school adopt the name of Jullie. There were three children in the institution, while the oldest child is twelve years of age.

CHILDREN NEGLECTED.

Mrs. Jullie informed Mrs. Lillie that she had time to wash the children just once a week.

When asked by Mrs. Lillie where she secured the children, Mrs. Jullie answered that they were all foundlings who had been left at the doorsteps of the institution. She declared that the state allowed her \$100 a year for each child, and that this was her only source of income toward their support.

During last December Secretary Gates visited the Loma Park institution, and the children were housed in broken-down shacks. There was no heat in the premises, and the children were constantly clothed. Bare boards were the tables in the improvised dining room. There were no forks, knives or crockery of any kind. The children were dirty, and their hair clumped close so that combing would be done away with.

Mrs. Jullie promised that conditions would be remedied at once, as she was about to move into a new building near by. She pleaded for another chance before the institution should be ordered closed. This was granted by Gates.

Subsequently Mrs. Lillie and President Meyer of the State Board of Charities visited the Loma Park institution, and the conditions were intolerable, although there was a slight improvement.

JUDGE TAKES ACTION.

It was decided that the case should be closed. The matter was taken up yesterday by the State Board of Charities with District Attorney Franklin Swart of San Mateo county. Immediately he brought the case before the Juvenile Court, where after evidence had been taken, Judge Burdett ordered the institution closed and the children turned over to the State Board of Charities for protection.

Active for the Native Sons and Daughters' central committee, Mrs. Lillie, and half after by the Children's Home Society of Berkeley. Out of the twenty-four children three are sick, and they will be cared for immediately by the Ladies' Protective and Relief Society of San Francisco and the Associated Charities of San Francisco.

Secretary Gates said that Mrs. Jullie was the mother of a Dr. Jullie of San Francisco, who was conducting a maternity institution. Gates declared that the State Board of Charities had not considered the criminal phase of the matter, although he claimed the law had been violated in that no records had been kept relative to the children.

IRISH CHANNEL CROSSED BY PLUCKY AVIATOR

WEXFORD, Ireland, April 23.—Making the first alarship flight over the Irish channel in a rainstorm and a heavy fog, Corby Wilson landed at Ennisconry, just north of here, yesterday. Except for smashing his propeller in making his descent, Wilson made the trip without mishap. He started from London in the wake of his rival, De Jallen, who, a wager with Wilson, started from London on Wednesday to cross the Irish channel. The other trip has not been heard from up to today. Wilson started over the channel from Fishguard.

The weather became so thick that he was forced to land at Ennisconry, although he had planned to continue to Dublin.

EXPLOSION KILLS THREE TRAINMEN

Engineer, Firemen and Brake-men Die When Locomotive Blows Up

ELKO, (Nev.) April 23.—Three trainmen were instantly killed yesterday when an engine on the Western Pacific blew up on the top of Antelope Hill, forty four miles west of Winnemucca.

THE DEAD.
Casey, James, engineer.
Croby, James, brakeman.
Reader, Fred, fireman.
Croby is a son-in-law of Judge William Bonfield of Winnemucca.
The explosion occurred shortly before 11 o'clock at Antelope Hill, where passenger train No. 4, and as the track was badly torn up, the passenger was delayed several hours.
The three victims of the explosion, all of whom resided in Winnemucca, were blown literally to pieces. Nothing was left of the engine except the running gear.

BIG GERMAN NAVY URGED BY CHANCELLOR

BERLIN, April 23.—The debate on the bills increasing the German army and navy began yesterday in the Reichstag. Dr. Von Bethmann-Hollweg, the Imperial Chancellor, in introducing the measures justified the increases on the grounds of Germany's exposed continental position and the ever-present danger of war. He was sure, he said, that no great power wished for, or was planning a war with Germany, but the war of the past had developed unexpectedly.

and the possibility of a conflict remains in a higher degree than before, owing to the increased facilities for fanning public agitation against the government for not adopting the inheritance tax to finance the army and navy bills, saying adequate funds were available without this project, on which the Reichstag was divided.

COUNT TOLSTOY AND HIS
THREE ASSISTANTS.

I saw a picture in a window the other day—a bromide enlargement of a photograph of the rugged old count and commoner of the Russian Empire. He was standing with a manuscript in his hand, looking down upon two women, one of them his wife and the other his daughter.

But the legend beneath the picture said—"and his three assistants."

And I looked,—

Oh, it was only a moment,—

And then I noticed that the assistant I had not at first seen was not a Russian, but an American.

Tolstoy, as I then noticed, was more intent on this foreign assistant than on the other two. As I looked closer I could see cordial approval written on the face of the count; indeed, he seemed to be admiring—

IT.

Oh, yes, its name was Remington, and "IT" was just one of those universal linguists, able to speak Russian, French—indeed, a fluent writer in eighty-four different languages.

And I began to think,—

"Why, here is a contradiction. Tolstoy was the man who dressed as a peasant and worked on his farm as a laborer, resisting all efforts made by civilization to lighten his work with labor saving machinery."

I have a picture of him following an old-fashioned plow behind a single horse.

What was this man doing with a Remington Typewriter? How could he reconcile its use with his ideas of primitive toil and rude, coarse living?

Here is the key to the riddle, as I see it.

Tolstoy was a thinker, and thought is more rapid than the lightning flash.

The man who toiled hard with his hands also thought fast with his brain.

And what was he to do to keep up?

A mere mechanical laborer would not, as such, make any appeal to this apostle of the primitive life.

But a thought harvester was another matter.

Here, then, was a machine apart—

A machine, to help a man think his thoughts.

And thus Count Tolstoy, the man with iron in his blood, distinguished between the Remington Typewriter and all the other mechanical labor savers of modern times.

Why Salves Can't Cure Eczema

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema is lodged.

This—this quality of penetrating—probably explains the tremendous success of the well known liquid eczema remedy, oil of wintergreen, thymol, glycerine, etc., compounded in D. D. D. Prescription.

We have sold other remedies for skin troubles but none that we can recommend as highly as this for we know that

Healthy Mothers

Women who bear children and remain healthy are those who prepare their systems in advance of baby's coming. Unless the mother aids nature in its pre-natal work the crisis finds her system unequal to the demands made upon it, and she is often left with weakened health or chronic ailments. No remedy is so truly a help to nature as Mother's Friend. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant those fibres and muscles which nature is expanding, and soothes the inflammation of breast glands. Mother's Friend assures a speedy and complete recovery for the mother, and she is left a healthy woman to enjoy the rearing of her child.

MASONS TO PAY
TRIBUTE TO DEAD

Oriental Consistory Will Drop Flowers on Grave of Titanic

CHICAGO, April 23.—Fifteen hundred members of Oriental Consistory stood with bowed heads in Madison Temple last night while they acquiesced in a proposition to join in procuring the most beautiful floral tribute that Chicago might furnish in memory of the Titanic dead.

"Arrangements have been made," said Charles J. Warner, master of the Lodge of Perfection, "to place this floral offering with the White Star Line to be taken on a ship and dropped in the sea as nearly as possible to the place where the heroes of the Titanic have found a grave."

A great wreath will be shipped to New York to be placed on the grave.

The opinion was expressed that all Masonic consistory in the United States will unite in this tribute, literally transposing a shipment of flowers to be cast on the sea.

"A definite list of Masons who perished has not been compiled," said Warner. "However, this act is not done by Masons for brother Masons. It is simply a tribute of Oriental Consistory to manhood."

The wreath will bear the inscription: "At Rest—Titanic."

The members of the Yaloha Club are: Miss Helen Gray, Miss Helen Crane, Miss Helen Troy, Miss Helen Rand, Miss Florence Zander, Miss Florence Harris, Miss Pauline Ench, Miss Vera Dabovich, Miss Valerie Faveaux and Miss Margaret.

They were many beautiful costumes worn by the young women and the ballroom was a profusion of dainty coloring.

MAKE ANOTHER ATTEMPT TO BLOW OPEN SAFE

SAN FRANCISCO, April 23.—Three suspicious characters whom it is believed have planned to blow open the safe of the American Biscuit company were put to flight and almost captured by Patrolman Crofton last night.

The officer noticed the men loitering in a peculiar manner and observed a lookout some distance off. He pursued them, firing several shots, but they eluded him in the darkness. This is the third time lately that the police have frustrated attempts to break into the factory and it is believed that some deep-laid plan has been made to drill the safe.

SEVERAL CHAMBERS OF COMMERCE TO UNITE

SUNOL, April 23.—The Sunol Chamber of Commerce will affiliate with the United Chambers of Commerce at Washington tomorrow besides joining forces with the Livermore and Pleasanton chambers.

This was decided at the last meeting of the body. Steps are to be taken at once for the consolidation of the organizations which it is believed will result in benefits to the several communities concerned.

The early completion of the Fresno Canyon road was discussed at length. Brief addresses were made by Jerome Arendt, T. H. Silver, Charles Gale, S. C. Davidson, Lee Wells and Lee Wells.

anton and Jules Jacobus and John Barnard of Niles.

STRUCK BY AUTOMOBILE WHILE BOARDING WAGON

SAN FRANCISCO, April 23.—E. Dowell, an employee of the Will & Fink company, was run down by an automobile at Gough and Haight streets, at 9 o'clock this morning. Dowell was in the act of climbing on a light wagon when the machine struck his foot, which was on the pavement, and threw him to the ground.

He received severe contusions and abrasions of the body, which were dressed at the Central Emergency hospital.

HIGH SCHOOL YOUTH FACES GRAVE CHARGE

SAN FRANCISCO, April 23.—Frederick W. ... High school, was arrested yesterday by Deputy Marshal Armbrich and charged with improper use of the mails. The complainant against the boy is a girl pupil of the same school who declares that McDonald sent her an indecent letter. The young man was arraigned before Justice of the Peace Charles and released on a bond.

THE DANGER AFTER GRIP

Use often in a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. DOWIE'S WIDOW
GUARDS SEPULCHER

Aroused by Rumor the Body of Prophet Is to Be Removed.

CHICAGO, April 23.—Mrs. Jane Dowie, widow of the late Dr. John Alexander Dowie, founder of Zion City and general overseer of the Christian Catholic church in Zion, having heard that a movement was on foot to remove the body of her husband from its grave to a mausoleum, has engaged detectives to prevent the desecration of his grave.

With Glenn Volz, successor of Mr. Dowie in Zion City, announced lately, it is said, that he had planned the erection of a mausoleum near Shiloh Tabernacle, in which was to be placed the body of the former leader. It was his idea, he said, to arrange pilgrimages to the mausoleum annually on the feast of the passover.

The body of the former leader now reposes in a grave in a cemetery at Zion City, reached only by an ungravelled footpath.

SHE CHANGED LOCATION BUT SO DID JUDGE

CHICAGO, April 23.—"You seem to follow me every place I go," said Municipal Judge Caverly to Julia Rubin, when she was arraigned before him for the third time in a few weeks on a charge of disorderly conduct.

"Yes, Judge," she replied, "I appeared here before and you told me to leave the neighborhood and I obeyed. I went to the West Side. I was arrested there and met you again. Then you told me to move back on the North Side. All I can say is, here I am."

"Well, I'll let you go again, but you must move away from the North Side," said the court.

THEN CAME SURGEON.

SAN JOSE, April 23.—A joke which almost was an execution was played in a West Santa Clara street saloon by George Bratton, a bartender, today. The victim, Peter Lacroix, was carried to a physician's office and 10 stitches were required to close a gaping wound in his neck. Bratton has been in the habit of whipping out a huge butcher knife and rubbing the dull edge across the necks of his friends. He forgot to turn the dull edge around when he said good morning to his friend Peter.

H. McGowan, 1218 W. Second street, Little Rock, Ark., says: "I suffered with severe pains across my back and the kidney action was irregular and very painful. After taking Foley Kidney Pills for a few days the pain left my back and the kidneys became normal. I can safely recommend Foley Kidney Pills for I know they helped me. 'WORKERS' BEAT
UP EACH OTHER

I. W. W. Meeting Ends in Conflict, in Which 250 Engage.

SEATTLE, April 23.—A meeting, which was to have been a peace conference between the radical and "conservative" factions of the Industrial Workers of the World, ended in a free-for-all fight in the I. W. W. hall last night.

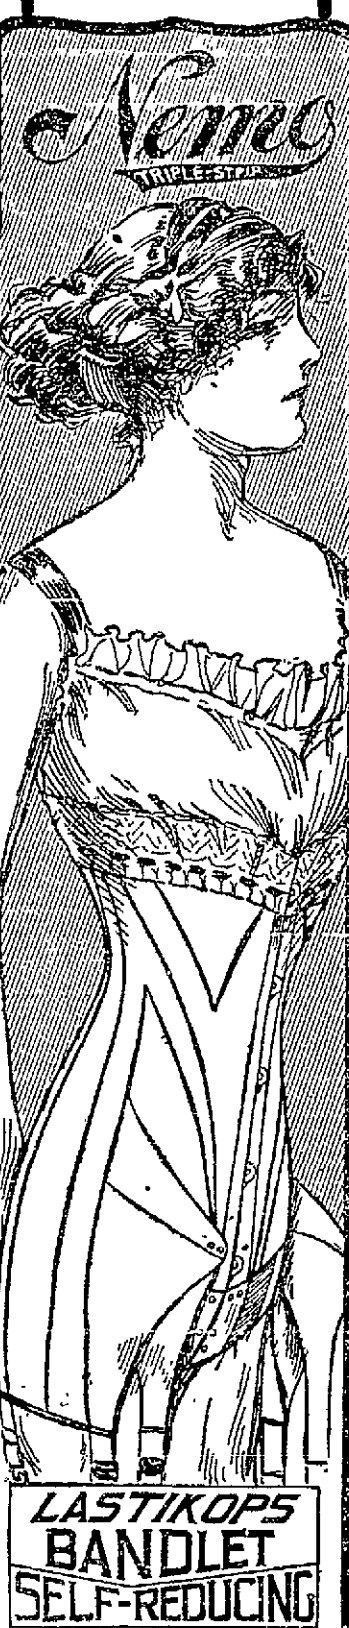

The "radicals" complained of the failure of the longshoremen's strike yesterday and advocated extreme violence to bring about a general walkout. The conservatives were for peace and demonstrated their efficiency by beginning to trounce the radicals. Chairs, tables and a stenographer were wielded with good effect, but the 250 men were so closely jammed in the hall that no serious damage resulted.

The conflict was witnessed by two city detectives who looked through a window until the battle waned when they entered the room. A general exodus followed. No arrests were made.

OUR MASTERPIECE!

NEW MODELS WITH
GREATLY IMPROVED
LASTIKOPS BANDLET

As an aid to HEALTH,
these corsets rank with the
greatest achievements in the
medical world.

DEAR MADAM:—

Don't think that this
corset is a surgical device
just because doctors every-
where are "prescribing" it
for women, stout or slender,
who need perfect hygienic
abdominal support.

Your dressmaker will re-
commend it quite as strongly
as your doctor, especially
if you are stout and want to
look slender without danger
or discomfort. It is a per-
fect STYLE corset for a
stout figure.

The improved elastic
Bandlet, made with slender
steel wire springs, curves
snugly under the abdomen,
giving firm but easy support
and freedom from that per-
ilous bearing down sensation
which every woman dreads.

No hose supporters
attached to the Bandlet—
it can't slip out of place,
and the corset can't ride up.

Two models:

New No. 523
(low bust) \$5
New No. 522
(medium bust)

Very long skirt, which
spreads comfortably when
you sit down.

THEY GROW HAIR

Certain Ingredients if Properly
Combined Stimulate the
Human Hair Growth.

Resorcin is one of the most effective
hair destroyers ever discovered. Boto-
naphthol is a most powerful, yet absolute-
ly safe hair antiseptic, which
prevents development of germ matter and
creates a clean, healthy condition.

Pilocarpine, although not a coloring
matter or dye, is an ingredient well es-
tablished for its power to restore natural
color to human hair.

Borax, because of its well-defined soft-
ening and cleansing properties, is most
useful in the treatment of scalp and hair
diseases. Glycerine acts as a stimulant
to the hair bulbs, and has a soothing,
healing and nourishing influence. Alcohol
is indispensable in medicine because of
its antiseptic, stimulating and preserva-
tive qualities.

Resall "92" Hair Tonic is chiefly com-
posed of these ingredients, which are
compounded in a peculiar form, and we
believe it is the most effective remedy
known to medical science for scalp and
hair troubles generally. We personally
guarantee it to eradicate dandruff and
scalp irritations and to grow hair, even
though the scalp is in a bare of hair
providing, of course, there is life and vi-
tality remaining in the hair roots.

We want every one troubled with scalp
disease, dandruff or loss of hair to try
Resall "92" Hair Tonic. If it does not
remove dandruff and promote a growth
of hair to the satisfaction of the user, we
will without question or quibble return
every cent paid us for it. This guaran-
tee is printed on every package. It has
effected most satisfactory results in 93
out of 100 cases where put to a practical
test.

Resall "93" Hair Tonic is entirely un-
like and in every particular different
from anything else we know of for the
purpose for which it is recommended.
We urge you to try it at our entire risk.
Certainly we could not do better guar-
antee. Two sizes, 50 cents and \$1. The

LEWIS DENIES
GRAVITY OF VISIT

Private Business Takes Militia
Officer to Capital of
Nation

SACRAMENTO, April 23.—Word from
Washington to the effect that Captain A.
Lewis, the commanding officer of
Company E of the National Guard of
California, was in that city on private
business concerning property holdings in
Mexico was received yesterday.

"My visit here has nothing to do
with political or military affairs in
Mexico," said Captain Lewis. "I expect
to be here two or three days more."

His business, he explained, was pri-
vate, relating to holdings of property
in Mexico.

When it was mentioned to Lewis that
there was a report that he might be
interested in certain military operations in
Mexico and that in connection therewith
he contemplated having a meeting with
Hernandez, who is interested in the
political life of Mexico, Captain
Lewis reiterated his denial, adding:

"I know my responsibilities as an
officer of the National Guard of Cal-
ifornia. I have not seen Hernandez."

RANCHER PUTS \$5000
ON FAKE HORSE RACE

SACRAMENTO, April 23.—According to
his report to Chief of Police Ahern, Wil-
liam Gallopi, a Long Valley, Larsen
county, stock raiser, was made the vic-
tim in this city last Tuesday of one of
the swiftest and most audacious swind-
les ever pulled off in Sacramento. Gal-
lopi was induced to part with a check
for \$5000.

Gallopi was induced to bet \$5000. He
won. Then the "operator" informed him
that he did not know whether the draft
for \$5000 was cashed or not. He asked
Gallopi to leave the draft until it could
be determined whether it was good.

This Gallopi readily consented to do.
He returned to his home in Long Valley
after changing the draft, at the stranger's
request, to a check for the same amount
on a Nevada bank.

When informed of the manner in
which Gallopi was duped, Chief Ahern
immediately telegraphed to the Nevada
bank and discovered that the check had
not been cashed. Payment was stopped
on it.

TO SPEAK IN SOUTH.

WASHINGTON, April 23.—Secre-
tary of State Mr. Knox will
leave on Sunday, April 23, for New
Orleans, where the secretary will de-
liver an address on April 30 at the
one hundredth anniversary of the
cession of Louisiana to the union.

They will go from New Orleans to
San Francisco, where the secretary
will speak before the officers of the
Panama-Pacific exposition, and will
return to Washington about May 19,
after an absence of three weeks.

Constipation, if Neglected,
Causes Serious Illness

Constipation, if neglected, leads
to almost innumerable complica-
tions affecting the general health.
Many cases of
typhoid fever,
appendicitis and
other severe dis-
eases are trace-
able to prolonged
clogging of the
bowels. Regard-
less of the effects
of constipation, C.
E. Miles' Laxative
Tablets, Montpelier,
Vt., is:

"I was afflicted
with constipation
and biliousness for
years, and at times became so bad I
would become unconscious. I have been
found in that condition many times.
Physicians did not seem to be able to
do me any good. I would become
weak and for days at a time could do
no work. Not long ago I got a box
of Dr. Miles' Laxative Tablets, and
after using them I had never
tried anything that acted in such a
mild and effective manner. I believe
I have at last found the remedy that
suits my case."

Thousands of people are sufferers
from habitual constipation and
while possibly realizing something
of the danger of this condition, yet
neglect too long to employ proper
curative measures until serious ill-
ness ensues. The advice of
all physicians is, "Keep your bowels
clean," and it's good advice.

Dr. Miles' Laxative Tablets are
sold by all druggists, at 25 cents a
box containing 25 doses. If not
found satisfactory, your money is
returned.

'THE PINK LADY' AGGRESSIVE
AS MUSICAL COMEDY GOES

MISS MINNIE JARBEAU, WHO IS DESIRABLE IN "THE PINK LADY,"
NOW AT MACDONOUGH THEATRE.

(By LEO LEVY.)

HERE are a few things
you'll like about "The Pink
Lady" if it appeals not as a
musical comedy. First-
instance, it is neither "sweet,"
elusive nor fragrant. We
are quoting from several
thousand words most agree-
able and pleasant to the ear.

and others have expelled from their
system in connection with the same place.
There is cause for thanksgiving in the
fact that it doesn't live up to its title
and its previous publicity. "Sweet" mus-
ical plays make nice pocket bags for any-
one who has a clothes-press on the brain.
"Elusive" musical plays have a tendency
to make you think, which isn't why you
see 'em. "Fragrant" musical plays re-
mind you of orchards in spring, a thing
fatal considering that you're a working
man with a vacation merely possible.

"The Pink Lady" is aggressive despite
the shade of the principal's gowns. Also,
it is better than the first act leads you
to believe. Most plays are the Act one is
the necessary evil of the stage and "The
Pink Lady" flaunts it. After riding it-
self of that, however, taking the audience
into its confidence and setting the stage
for complications, we are introduced to
a lively scene in a roomy finale.
Incidentally, John E. Young stays in the
dressing room until the curtain rises on
act two. Young and the complications
ensue at the same moment. You are
grateful for his appearance. There is
reason, if no other, and while a stray
vote would not elect him president of the
comedians' union, he is entitled to a card,
issued for skill.

COMPANY A-PLenty.

We counted eleven principals and
thirty-odd chorus members on the Mac-
donough stage, at one time, last night.
From the point of numbers "The Pink
Lady" company is commendable. There
are rather capable principals at that. Olga
De Baugh as Claudine, the "Pink Lady,"
possesses the necessary physical charm,
aggressiveness and vocal ability. Mar-
guerite Wright, Minnie Jarbeau, Louise
Ray and Cecile Brooks may be rated
likewise. Josie Intropole's feminine
charm and as Madame Dondidier
graces and does the heavy work for
the women of the company. Roland
Bottomly is Lucien Gardier, a gay de-
coy, and a very capable actor. The
audience, but is awarded thanks
for setting off the fireworks. Harry
Depp's Bobo Gulgoph is something new
in characters. George McJannet is
Maurice D'Uzac, a musical comedy villain
who forces a duel on an unwilling au-
dience. And there are the rest of them,
grading down from best to fair.

That's over with. Reviewing the in-
dividual merits of a theatrical company
and putting it on paper is almost as tick-
ling as trying to recall the plot. The
latter possession of "The Pink Lady" is
an adaptation from "Le Cidre," a French
affair that had more or less success
abroad. There are a score of counter-
plot and subplots that are neither here
nor there. The story is that of a young
man who, to hide indiscretions attained
in the company of laundie, unwittingly
involves Philippe Poudrier, a harmless
dealer in antiques.

EVERYBODY POSES.

As is usual in things Gaelic, everyone
poses as some one else, wife catches
husband in the embraces of others and
fairer and the last act winds up at a
lively ball.

It's a weak excuse for a French musical
comedy that has neither a ball-room scene
nor an act set in a cafe.
Dondidier, suspected of being a satyr
who has indulged his kissing propen-
sities in the forest of Compelien, is ar-
rested by a comic opera sleuth, allowed
over a "ball" and is put in a situation
in a comic opera way.

There is a little to most of "The Pink
Lady" music and to the producer's
credit let it be said that "Beautiful
Lady," a "sweet and elusive" waltz song
is an incident of interest to the plot. It is,
therefore, not strangled to death.

This is not the most brilliant spectacle
in the musical comedy world, but there
are eleven principals and a quantity of
girls, which will make up for that.

WHAT AUTHOR THINKS.

And while "The Pink Lady" is in mind,
it had be rather of interest to note what
its author thinks of his audience and
the public in general.

C. M. McLellan wrote the book of the
musical comedy. Incidentally he was
responsible for "Zerk Kiechman" and "The
Relief of New York." McLellan was in-
terviewed by London reporters, when he ac-
companied Charles Frohman to witness

DOCTORS ADVISE
OPERATIONS

Saved by Lydia E. Pinkham's
Vegetable Compound.

Swarthmore, Penn. — "For fifteen
years I suffered untold agony, and for
one period of nearly
two years I had hem-
orrhages and the
doctors told me I
would have to un-
dergo an operation,
but I began taking
Lydia E. Pinkham's
Vegetable Compound
and am in good health now. I
am all over the
Change of Life and
cannot praise my Vegetable Compound
too highly. Every woman should take it
at this time. I recommend it to both old
and young for female troubles."—Mrs.
EMILY SUMMERSFILLE, Swarthmore, Pa.

Baltimore, Md. — "My troubles began
with the loss of a child, and I had hem-
orrhages for four months. The doctors
said an operation was necessary, but I
dreaded it and decided to try Lydia E.
Pinkham's Vegetable Compound. The
medicine has made me a well woman and
I feel strong and do my own work."—
Mrs. J. R. PICKING, 1260 Sargeant St.,
Baltimore, Md.

Since we guarantee that all testimo-
nials which we publish are genuine, is it
not fair to suppose that if Lydia E. Pink-

to help these women it will help any
other woman who is suffering in a like
manner?

VANCOUVER MAN IS
VICTIM OF POISONER

VANCOUVER, (B. C.), April 23.—John
Richard Speers, who died March 17, was
murdered by some unknown person who
maliciously placed a strange poison
where Speers, seeking a drink, would ac-
cidentally find it. This was the verdict
of the coroner's jury last night.

The dangerous nature of the drug was
testified to by Dr. Underhill, city health
physician, who said the poison was not
obtainable in Vancouver. Dr. Underhill
said that the action of the drug reminded
him of the death scene from "Romeo and
Juliet."

BERKELEY 'AD'
MEN FORM CLUB

Wells Drury Is Elected President of the New Organization.

BERKELEY, April 23 — The Berkeley A club was organized last evening at a meeting in the rooms of the Berkeley Y. M. C. A. in the Commercial Union Building Chamber. The Committee on the Adoption of the constitution in the form approved by the national organization, which was read and adopted, and the endorsing clubs of America the following officers were elected: President Wells Duury, secretary, Maurice Hirschfeld, secretary-at-large, P. Howard, and Frank H. Abbott of Berkeley was unanimously elected delegate at large. The following officers will be chosen at a subsequent meeting:

Among these present last evening were T. McGovern of San Francisco, A. L. Hall of Los Angeles, R. H. Anderson, San Mayor Maurice Hirschfeld, Z. P. Smith, Wells Duury, H. A. Fletcher, J. H. with the provisions of section 137 of the Code of the State of California, all voters who are not registered must apply for re-registration in order to vote at the primary election to be held under section 132, and for the general election to be held on the 5th day of November, 1912.

In view of the fact that there is no provision in section 137 for assistance to the County Clerk in making out the list, it is important that voters should apply for re-registration at once, in order to avoid any possible delay.

Such re-registration began on the first day of January and will be in progress at all times until August 31, 1912, for the purpose of making a complete list of the voters of the county for the primary election, after which the registration will again open and continue until the first day of January, 1913, for the purpose of establishing voters for the primary election to be held November 5, 1912.

The attention of voters is especially directed to the recent decision of the supreme court in the case of *People v. Anderson*, in which it was held that voters must have resided here at least

COLONEL MAY LOSE DELEGATION IN OREGON

District Attorney Declares He Is Not Entitled to Entire Support.

SALEM, Ore., April 22. — An informal opinion on the Republican primary last Friday expressed by Attorney General A. M. Crawford holds that Theodore Roosevelt is not entitled to the vote of the full Oregon delegation to the national convention. Crawford is quoted as saying that under the Oregon law, as he construes it, it is not incumbent upon all delegates to support a certain candidate unless that candidate received a majority of his party's primary vote. Where it is a question of a plurality only, as was the case last Friday, the opinion holds that the delegates are bound to vote for the candidate they represented upon the primary ballots. Calling attention to the fact that in this state each voter is permitted to vote for but one delegate, Attorney General Crawford said:

"This is apparently a pure and simple effort to secure proportional representation.

To light of this fact he said, it was his opinion that "those who received from the party a sufficient number of votes to elect them as delegates, and who were representatives on the ticket of either Taft or La Follette, are, in the proportional representation theory in duty bound to vote for those candidates whom they declared to the people on the ballot they would represent in the national convention."

CAUCUSES HELD.

ST. LOUIS, April 22.—Caucuses preliminary to the Republican state committee meeting tomorrow and the state convention Thursday began here today, and it is expected they will not be concluded until late tonight. The Taft and Roosevelt factions are engaged in a fight for control of the state.

The national administration is to be represented by Secretary of Commerce and Labor Charles Nagel and Congressman Richard Bartholdt, who are due to arrive here tonight. Governor Hadley, the leader of the Roosevelt forces, began his caucuses early.

Each faction is claiming the state convention, at which four delegates-at-large and alternates to the national convention will be chosen and eighteen electors and a national committeeman elected.

The Taft leaders announced that the President has 494½ delegates instructed, Roosevelt 44½ and contested 224. The Roosevelt faction claims 564½ votes and gives the administration 482½ votes with

51 contested and 3 unopposed.

The 1911 national meeting will try to decide the contest. If no agreement is reached two state conventions are expected to be held.

MAY BE SURPRISE.

CEDAR RAPIDS, April 23.—Whether Senator Albert B. Cummins' adherents were planning a surprise for the Taft forces in the state convention here tomorrow, was the paramount question among the delegates early today. The attitude of John H. Briar, Cummins' Iowa campaign manager, gave cause for uncertainty even among Taft's friends. He claimed to be able to control the convention, but declined to divulge the source of his support, merely stating there would be sufficient delegates to turn the convention to the Iowa Senator.

John T. Adams, Taft's Iowa manager, was more insistent than ever that he and his friends would organize the convention to the extent of raising his estimate to 55 majority. The action of Former President Roosevelt in relieving three county delegations from supporting him is expected to play an important part in the organization of the convention.

Though both factions claim that no "leak" has been prepared, gossip was that former Congressman W. F. Hepburn and George D. Perkins, the Sioux Falls editors, would be two of the delegates-at-large in the event the Taft forces win. Governor B. F. Carroll was mentioned in this connection as a possible delegate-at-large, but it was stated that he would not accept, and he himself declined to say what his action would be. In the event of Senator Cummins' victory, Senator W. S. Kenyon probably will head the delegation.

The Fifth Iowa Congressional district convention will be held tonight.

Frank J. Cooper of the Frank J. Cooper Advertising agency, San Francisco, and M. Martin Kallman, business expert of San Francisco, were the two main speakers at the bi-monthly luncheon of the Oakland Advertising Association today at the Forum cafe. More than forty members of the club were present at the affair.

"What is Advertising?" was the subject of Cooper's paper. He gave a brief outline of the subject, saying:

"Advertising is that which is done for the purpose of attracting attention in order to secure financial returns. Within the past decade in this country, advertising has become one of the most important factors in life, and one which within the coming ten years will taken even greater strides, in which direction remains to be seen."

The speaker then gave details of the history of the subject from the earliest times, following them by a discussion of just what the subject embraces and its problems.

Cooper then suggested a number of advertising precepts, and was followed in turn by A. L. Haines of San Francisco, who reported on the plans for the national convention of the A. D. A. in Dallas, Texas, next month, by H. C. Capwell, and by Wells Drury, president of the Berkeley Ad Club which was organized last night.

The next meeting of the club will be held May 7.

## JOHN MUIR HOME AFTER LONG TRIP

The Aged Naturalist Discovers Many Rare Plant Specimens in Jungles

LOS ANGELES, April 23.—After a year's important trip into the heart of the forests and jungles of South America, and Africa, in the interest of science, John Muir, California's famous naturalist, author and explorer, returned on his 74th birthday anniversary. He went direct to the residence of his daughter, Mrs. B. A. Funk, in Hollywood, where there was a reunion and celebration. Last night Mr. and Mrs. Funk announced that Muir would make his home with them the remainder of his days. The aged traveler is in splendid health and spirits despite his strenuous journeying. Muir made the long trip—25,000 miles—for the specific purpose of studying and familiarizing himself with three rare species of trees and plant life. He went along the greater part of the time through wild and desolate regions infested by fierce animals and deadly reptiles and inhabited by untamed tribes. He penetrated one of the greatest forests on earth 1000 miles up the Amazon and found many rare trees. In the heart of Brazil's mountains he discovered hundreds of araucaria, brazilian, among the oldest known trees and one of the three he sought. Then he crossed the Andes and 500 miles beyond, in Chile, in quest of the araucaria imbricata, and found it. There, he says, he has ever seen, and spent many weeks in its depths alone studying, photographing and sketching interesting specimens of various sorts which no other naturalist has seen.

From Santiago he sailed for Africa and after a voyage of 32 days, reached Cape of Good Hope and set out alone on a 1300 mile jaunt inland to Victoria Falls. He did not go to behold the grandeur of the tumbling waters, but merely to find, if possible, a specimen of the baobab plant among the lions, tigers and savages. He came upon many of the precious plants, some of gigantic size, and feels amply rewarded.

## FORMER CONVICT HELD AS JEWELRY BURGLAR

CHICAGO, April 23.—Jacob Moss, forty-two years old, and a former convict, was arrested here last night a few hours after paying a fine in Elgin for having in his possession a revolver and burglary tools, charged with complicity in the theft of jewelry from a South Chicago store. Moss is also suspected of having aided in the burglary of the Franklin Jewelry Store in Kansas City, Mo., where \$5,000 worth of property was taken.

C. L. Parsons, secretary and treasurer of the C. H. Ward Drug Co., Pasadena, Calif., writes: "We have sold and recommended 'Fie's' Honey and Tar compound for years. We believe it to be one of the most efficient expectorants on the market. Containing no opiates or narcotics it can be given to children. Enough of this remedy can be taken to relieve a cold as it has no nauseating results and does not interfere with digestion." Wishart's drug store, corner Tenth and Washington streets.

What promises to be one of the most delightful of this season's after-Lenten dancing parties will be given tomorrow evening at the Home Club by the Terpsichorean Assembly.

The committee of arrangements has been hard at work for some time past preparing for the event and at last night's meeting reported all plans completed and promised to the members and their friends a rare treat on Wednesday evening.

A reception committee of eight was appointed to receive the guests and administer to their wants during the evening. Those appointed were Miss Rose O'Kane, Miss Alice Gallagher, Miss Mary O'Neill, Miss Agnes Williams, Mr. J. Granville Martin, Mr. D. M. Gallagher, Mr. William R. Ward and Mr. J. T. Gallagher.

## MEMBERS OF ILLINOIS MOB ARE INDICTED

ROCK ISLAND, Ill., April 23.—Indictments charging assault with intent to murder against E. H. Gardner, a Socialist editor; Harry McCaskey, Republican nominee for state's attorney; and Philip Weiss, a justice of the peace, were returned by the grand jury that investigated the recent riot which resulted in the killing of two and the wounding of nine persons.

The three mentioned are held responsible for bringing about the fatal clash between the police and the mob that attacked the city hall.

Gardner is at the head of a movement for the recall of Mayor Schuyler and Police Commissioner Hart. There are twenty-six indictments not yet made public.

## 6 OF ALLEN CLAN ARE ARRAIGNED

Prisoners Accused of Slaying in Court Charged With First Degree Murder.

HILLSVILLE, Va., April 23.—Six members of the Allen clan were arraigned here today to answer for their part in the Carroll court tragedy of March 14, when Judge, prosecutor, sheriff, a juror and a spectator were shot to death.

The prisoners, including Floyd Allen, upon whom a prison sentence was about to be imposed when the shooting commenced, his sons, Claude and Victor, and his nephews, Sidney Edwards and Byrd Marlon, are charged with murder in the first degree. They were brought here from Roanoke last night.

Attorneys for the accused have admitted that an effort would be made to place responsibility for all the murders upon the Allen clan. Claude and Victor Allen shot in self defense when attacked by court officers; that Claude and Victor Allen fired in the excitement of the moment and that Sidney Edwards, Byrd Marlon and Victor Allen did not shoot at all.

## YUKON TO BE OPEN FIRST PART OF MAY

SEATTLE, April 23.—The Yukon river will be open for navigation from Lower Labarge to the mouth soon after May 10. Lake Labarge, which is a wide portion of the river below White Horse, the head of navigation, is always icebound for some time after the lower river is open. Passengers and freight for Labarge cross this ice to reach the steamer at the foot of the lake. Warning has been given that the ice will not be safe for crossing after May 1. The opening of the Yukon is the earliest in the memory of man, and follows the mildest winter of which there is any record.

SACRAMENTO, April 23.—Foreign corporations which went out of existence last November or at any time prior to that may "come back" according to an opinion rendered yesterday by the Attorney-General's office. The Secretary of State Jordan, and will not have to pay up their delinquent taxes.

Over 2500 foreign corporations forfeited all right to do business in California last November. All they are now required to do is to comply with sections 405 and 406 of the civil code, which lay down the rules for foreign corporations seeking charters in the state.

## 'SALVATION SUE' ROMANTIC PHOTO

Camera Theater Is Displaying Feature Films on Good Program.

A good program is to be seen at the Camera Theater today. Six pictures make up this program, three of which can easily be termed features. These are "Salvation Sue," a most enjoyable story taken from that well known play, "Salvation Nell." The scenes are well laid and the acting particularly well done by the Champion Stock Company. Sue, a Salvation Army girl, rescues a young man who has fallen and shows him the better way. The young man afterwards proves himself to be worthy her love. The other picture plays worthy of mention are "The Joke on Mr. Henchard," a good comedy, and "Her Indian Hero," a pretty western story.

HEAVY SNOW IN ONTARIO. FORT WILLIAMS, Ontario, April 23.—There has been a heavy fall of snow during the last twenty-four hours here, and no signs of opening of navigation on the Superior are apparent. Grain men are anxious to ship Canadian grain out of Duluth and Superior elevators.

## Radway's Ready Relief

Jacob Able of R. F. D. No. 1, Milltown, N. J., writes: "For the last three years I have had kidney disease and backache, and I have had it so bad that for eight days and nights I could not get my clothes off. I thought I would try Radway's Ready Relief. I gave my back and hips a sides a good rubbing, and in a short time the pain was all gone. So now I am a happy man. I have not had any more pain. ## WOMAN INSTANTLY KILLED WHEN AUTO OVERTURNS

COLFAX, Wash., April 23.—Mrs. Ella Seagle, aged 52, was instantly killed and her husband, James Seagle, seriously injured by the overturning of their automobile near their ranch house, nine miles east of Colfax, Sunday evening. Seagle was driving a new car and attempted to dodge a mud hole, but drove too close to the edge of the bank, the car slipping down an eight-foot bank and turning half over. Mrs. Seagle was caught under the car, the front seat resting across her neck and crushing her chest.
